Chairman's Statement

Dear Shareholders,

On behalf of the Board of Directors, I am pleased to present the Annual Report and Audited Financial Statements of Indo-Malay PLC for the year ended 31st March 2022 and welcome you to the One Hundred and Sixteenth Annual General Meeting of the Company.

Financial Performance

The main business of the Company is the minority equity investments it holds in Shalimar Developments Sdn. Bhd. (SDSB) and in Shalimar (Malay) PLC (SMPLC). SDSB's investee Company carries out palm oil plantation operations in Indonesia.

The investee Company continues to take proactive measures to ensure uninterrupted business operations whilst the COVID-19 pandemic still prevails. The Crude Palm Oil (CPO) prices have continued to trade at higher levels during the fourth quarter in the year under review, although partly impacted by the duty on CPO sales introduced by the Indonesian government and the continued impact of higher input costs such as fertiliser stemming from the prevailing unrest in Ukraine. In the backdrop of these industry and economic challenges, the company is cautiously preserving its liquidity position to ensure it remains strong and resilient.

The Company received interim dividends from its equity investments in the year under review. Further, the Company earned interest income from its short-term deposits in Sri Lanka, the rate of which had declined sharply in the year under

review, but expected to increase in the 4th quarter with the Central Bank of Sri Lanka's decision to increase interest rates in general, going forward.

Accordingly, your Company recorded a net profit after tax of Rs. 22.35 Mn for the year as compared to the profit of Rs. 5.85 Mn recorded in the previous financial year.

Interim Dividend

The Company received a dividend from its investment in SDSB in July 2021 and consequently declared an interim dividend of Rs 7.58 per share to the shareholders for the year ended 31st March 2022. This was paid to the shareholders in July 2021.

Minimum Public Holding

As per Rule 7.14.1 (a) of the Listing Rules of the Colombo Stock Exchange, a Listed Entity on the Main Board having a public holding below the specified requirement in terms of the said rules, has to ensure that the public holding of such entity is maintained at a defined public holding percentage of shares in the hands of minimum number of public shareholders as specified in the said rules.

As previously informed via annual and interim reports, the Company is not in compliance with the minimum public holding requirements in relation to a Company Listed on the Main Board of the Colombo Stock Exchange (CSE) as per Rule 7.14.1 (a) of the Listing Rules of CSE. Accordingly, the Company was transferred to the 'Watch List' of the CSE in terms of Rule 7.14.2 (b) of the previous Listing

Chairman's Statement

Rules of the CSE with effect from 02nd July 2018. However, the CSE via their Circular No. 03/2019 dated 03rd October 2019 amended the Listing Rules on enforcement actions applicable for non-compliance with minimum public holding requirements with effect from 12th September 2019.

Accordingly, in terms of Rule 7.14.2 of the Listing Rules of the CSE, the Company was transferred to the Second Board with effect from 15th November 2019. In this regard, I wish to highlight that the objective of the voluntary offer made to all shareholders in 2011 was to acquire the entire minority shareholding as a step towards the consolidation of the oil palm plantation business segment of Carsons group. The offer documents also mentioned that upon completion of the voluntary offer, the rationale for remaining listed will be evaluated. Since the voluntary offer did not result in the acquisition of the entire minority shareholding, the Company continued to remain listed.

Taking into consideration that a voluntary offer had been made and also considering that there is no requirement for additional capital infusion to the Company and resultantly, there being no plans for issuing of new shares nor a dilution by the majority shareholder and as previously

communicated to shareholders through market disclosures and Annual Reports and in terms of the revised Listing Rules, we will report on the proposed course of action.

On behalf of the Board of Directors of the Company, I extend our appreciation to the shareholders for their continued support and confidence placed in the Directors and to all our business associates.

I am thankful to our management and staff for their hard work and dedication. Last but not least, I would like to thank my fellow Board Members for their support and guidance provided throughout the year, and to the members of the Audit Committee, Remuneration Committee and Related Party Transactions Review Committee for their invaluable efforts.

Management Discussion and Analysis

Review of Industry and Operational Performance

The equity investment in Shalimar Developments Sdn. Bhd. (SDSB) and the shares held in Shalimar (Malay) PLC (SMPLC) comprise the sole operation of the Company.

SDSB's investee Company is managed by the group's fully owned management arm in Indonesia which consists of 26,516 hectares of plantation with processing facilities of 225 MT/hr. Statistics pertaining to the operating performance of SDSB's investee Company is provided in this annual report in section 7 under "Information to Shareholders and Investors" in page 74.

The Investment in SDSB is recorded in the financial statements at fair value as determined by an independent professional valuer as more fully explained in Note 08 to the Financial Statements.

The COVID-19 pandemic continues to pose challenges and risks to the operating environment in the plantations. The investee Company has been taking several measures to ensure uninterrupted business operations in the midst of the relentless COVID-19 pandemic. On a positive note, the Crude Palm Oil prices (CPO) have continued to trade at higher levels during the fourth quarter in the year under review and has increased on Year-on-year basis, although partly impacted by the duty on CPO sales introduced by the Indonesian government and the continued global increase in input material costs. In the backdrop of these industry and economic challenges, the company is

cautiously preserving its liquidity position to ensure it remains strong and resilient.

The Company received dividends from its equity investments in the year under review. Further, the Company earned interest income from its short-term deposits in Sri Lanka, the rate of which has declined sharply following the pandemic outbreak but is now expected to increase significantly from 4Q FY21/22.

Accordingly, the profit after tax of Rs. 22.35 Mn from operations during the year under review compared to the profit of Rs. 5.85 Mn recorded in the previous financial year.

Interim Dividend

The Company received a dividend from its investment in SDSB in July 2021 and consequently declared an interim dividend of Rs 7.58 per share to the shareholders for the year ended 31st March 2022. This was paid to the shareholders in July 2021.

Minimum Public Holding

As more fully noted in the Chairman's Review, the Company is not in compliance with the minimum public holding requirements in relation to a Company Listed on the Main Board as per Rule 7.14.1 (a) of the Listing Rules of Colombo Stock Exchange (CSE). The CSE subsequently issued an amendment on enforcement actions applicable for non-compliance with minimum public holding requirements via their Circular No. 03/2019 dated 03rd October 2019. Accordingly, the company was transferred to the Second Board with effect from 15th November 2019.

We wish to note that taking into consideration the voluntary offer made to all shareholders in 2011 as a step towards consolidation of the oil palm business and as mentioned in the offer documents that the need for remaining listed will be evaluated. Since the voluntary offer did not result in the acquisition of the entire minority shareholding, the Company continued to remain listed. Further, considering that there is no requirement for additional capital infusion to the Company and resultantly, there being no plans for issuing of new shares nor a dilution by the majority shareholder and as previously communicated to shareholders through market disclosures and Annual Reports and in terms of the revised Listing Rules, the Company will report its proposed course of action.

Risk Management

The Company's overall risk management objective is to ensure that it creates value to its shareholders, whilst minimising any potential adverse impact. The Company's risk management framework is aligned to that of its parent Company and Board approved policies and guidelines.

The integrated risk framework ensures early detection and prevention of risks as well as exploitation of opportunities, contributing to a sustainable business model. The risks are continuously anticipated, reviewed and managed through the deployment of effective corrective actions.

Continuing Business Segment

The continuing business of the Company consists of the (i) equity investment made in Shalimar Development Sdn. Bhd. (SDSB) and (ii) shares held in Shalimar (Malay) PLC. SDSB owns shares in PT Agro Indomas of Indonesia, which is in the Oil Palm Plantation business. The Company's only source of operating income is any potential dividend income it may earn from its long term investment. The performance of the investment (both the investment value and the dividend returns) are subject to the following key risks.

(a) Investment Income Risk

I. Commodity Price Risk

The price of Crude Palm Oil (CPO), the main produce of PT Agro Indomas, is determined by international market dynamics of demand and supply. The price of CPO is volatile along with the movements in the global commodities market. The sale of

CPO is the prime source of cash inflow for PT Agro Indomas. Therefore, any volatility in CPO prices will have a direct impact on the operating results and cash flows of PT Agro Indomas and its ability to pay dividends.

II. Environmental Risk

Unfavourable weather patterns, resulting in extreme conditions impacting palm growth, natural and man-made disasters such as fire and potential crop disease could affect the quantity and/or quality of the produce. Accordingly, this can impact the volume of CPO production, and therefore, impacting the operating results and cash flows generated by the investee companies and their ability to pay dividends.

(b) Investment Valuation Risk

The value of the investments in the investee companies are stated at fair value and are assessed by an independent professional valuer using the discounted cash flows methodology. Some of the key assumptions which impact the valuation include the forecasted international selling price of CPO and the applicable market discount rate, both of which are beyond the control of the Company. While adequate measures are taken to manage the controllable input of the valuation assumptions, volatility in external environment and industry dynamics such as weather patterns and biological cycles together with macro-economic and political factors including inflation rates, also can result in fluctuations in the appraised fair value of the investments in the financial statements.

Risk Management

(c) Foreign Exchange Risk

A currency risk is generated through the translation of foreign currency denominated investment to Sri Lankan Rupee for the purpose of financial reporting in Sri Lankan Rupees.

Given the impact from the global pandemic, the price and foreign exchange risk have exacerbated significantly; and supply chain for edible oil and other commodities may face significant disruptions.

8 INTERNAL CONTROL AND RISK MANAGEMENT

The ultimate responsibility to establish, monitor and review a company-wide internal control system rests with the Board of Directors. The intensity, depth and the tolerance limits for each components of the internal control system would be based on the

weight of the elements of risk imposed on the sustenance of the business by the respective area of operation. Whilst a strong internal control system would mitigate the crystallization of risk elements to a greater extent, employment of external support structures would also be necessary based on the risk assessments made thereon.

Effective maintenance of internal controls and risk indication and mitigation is handed down to the respective members of senior management within the guidelines of benchmark policies, procedures and authority limits clearly laid down.

Group internal Audit, whose scope of scrutiny is entirely driven by grading of the risk involved, will be monitoring and providing feedback to the Management and the Audit Committee. Regular submission of compliance and internal solvency certificates vouched by the Heads of the respective divisions as a mandatory agenda item keeps the Directors abreast of the position of the Company's resource base and governance requirements.

This allows the Board to have total control of the fulfillment of governance requirements by providing opportunity to take timely preventive action in case of potential deterioration of status quo.

A comprehensive description of the risk management strategies of the Company are given on pages 5 to 6 in the Annual Report.

Mr.Y.H. Ong is a Non-Executive, Independent Director of CCPLC. He is an Independent Non-Executive Director, Chairman of the Audit Committee and Member of the Nominating Committee of Singapore Power Ltd. and Capitaland Group

Pte Ltd. He has served as Independent Director of United Overseas Bank Ltd., Singapore. Mr.Ong had also served at Ernst & Young, Singapore for 30 years and was involved in audit and financial advisory work etc.

The audit aspects of Indo-Malay PLC are conducted within the Agenda of CCPLC - Audit Committee.

The Company holds and manages an investment portfolio.

Meetings of the Audit Committee

As allowed by the CCPLC-Audit Committee Charter, CCPLC-Audit Committee held Six (06) virtual Meetings during the financial year to discuss matters relating to the Company.

The attendance of the Members at Committee Meetings were as follows:

	Meetings (virtual) attended (out of 06)
Mr.A.S. Amaratunga (Chairman)	6/6
Mr.D.C.R. Gunawardena	6/6
Mr.Y.H. Ong	6/6

The Audit Committee Meetings were attended by the Country Head (Sri Lanka) and Head of Finance-MIS & Reporting, Agro Harapan Lestari (Private) Limited, Managers.

The Audit Committee met the External Auditors, Messrs.Ernst & Young twice during the year to discuss the audit scope

Audit Committee Report

and to deliberate the draft Financial Report and Accounts.

Following the Audit Committee Meetings, the Chairman-Audit Committee issues a written update for circulation to the Board, as relevant, indicating the important matters discussed and decisions taken in respect of the Company. In addition, Minutes/extracts of the Minutes of Audit Committee Meetings are circulated to the Board of Directors.

Purpose of the Audit Committee

To assist the Board of Directors in fulfilling its oversight responsibilities for the financial reporting process, the system of internal control over financial reporting, the audit process and the Company's process for monitoring compliance with laws and regulations, Company policies and procedures and the code of conduct.

To ensure that the internal audit activity is well-managed, so that it adds value to the organisation by being objective in providing relevant assurance, contributing to the effectiveness and efficiency of governance, risk management and control processes. Also, to select and implement a direct reporting relationship with the Company's External Auditors and ensuring their independence.

Financial Statements

The interim financial statements of Indo-Malay PLC have been reviewed by the Audit Committee Members. The draft financial statements of Indo-Malay PLC for the year ended 31st March 2022 were

also reviewed at a Meeting of the Audit Committee Members, together with the External Auditors, Messrs. Ernst & Young, prior to approval by the Board of Directors and release of same to the Regulatory Authorities and to the shareholders.

The Audit Committee Members were provided with confirmations and declarations as required by the Managers, Agro Harapan Lestari (Private) Limited that the said financial statements were prepared in accordance with the Sri Lanka Accounting Standards (SLFRS/LKAS) and the information required by the Companies Act No. 7 of 2007 therein and presented a true and fair view of the Company's state of affairs as at that date and the Company's activities during the year under review.

Internal Audit

The operations of the Company have been scaled down only to the investments in Shalimar Developments Sdn Bhd, which is the investment arm within the Group. Since no new investments were made, the risks are very minimal and thus no internal audits were carried out during the year.

Performance of the investments held by the Company

The Company's investments in PT Agro Indomas (PTAI), held through Shalimar Developments Sdn Bhd is managed by the group's (GAHL) fully owned management arm in Indonesia, PT Agro Harapan Lestari. GAHL's Audit Committee covers audit obligations over Indonesian plantation operations incorporated in Indonesia, including PTAI.

External Audit

The External Auditors' Letter of Engagement was reviewed and discussed by the Committee with them and the Management prior to the commencement of the audit and the Committee followed up on the issues raised by the External Auditors.

The Members of the Audit Committee have determined that the independence of Messrs. Ernst & Young, Chartered Accountants has not been impaired by any event or service that gives rise to a conflict of interest. The Committee also reviewed the arrangements made by the Auditors to maintain their independence and confirmation has been received from the Auditors of their compliance with the independence guidance given in the Code of Ethics of the Institute of Chartered Accountants of Sri Lanka.

The Members of the Audit Committee have concurred to recommend to the Board of Directors the re-appointment of Messrs. Ernst & Young, Chartered Accountants, as Auditors for the financial year ending 31st March 2023, subject to the approval of the shareholders of Indo-Malay PLC at the Annual General Meeting.

Related Party Transactions Review Committee Report

In accordance with the Colombo Stock Exchange Listing Rules, the Related Party Transactions Review Committee (RPTRC) of Carson Cumberbatch PLC (CCPLC), the Parent Company of Goodhope Asia Holdings Limited, functions as the RPTRC of the Company.

The Company holds and manages an investment portfolio.

Composition of the Committee

The Members of the RPTRC are as follows :

RPTRC Members	Executive/ Non-Executive/ Independent
Mr.W.M.R.S. Dias (Chairman)	Non-Executive, Independent (CCPLC)
Mr.D.C.R. Gunawardena	Non-Executive (CCPLC)
Mr.H. Selvanathan	Executive Director (CCPLC)
Mr.M. Selvanathan	Executive Director (CCPLC)
Mr.S.K. Shah	Non-Executive Director (CCPLC)
Mr.R. Theagarajah	Non-Executive, Independent (CCPLC)

Meetings of the Related Party Transactions Review Committee

CCPLC-RPTRC held One (01) virtual Meeting in each calendar quarter and a total of Four (04) RPTRC Meetings were held during the financial year. In addition, the approval of the RPTRC Members were sought via 10 Circular Resolutions, as well as 12 Circular Letters were circulated for their information during the financial year.

The attendance of the Members at Committee Meetings were as follows:

	Meetings (virtual) attended (out of 04)
Mr.W.M.R.S. Dias (Chairman)	4/4
Mr.D.C.R. Gunawardena	4/4
Mr.H. Selvanathan	3/4
Mr.M. Selvanathan	4/4
Mr.S.K. Shah	4/4
Mr.R. Theagarajah	3/4

Purpose of the Committee

The objective of the RPTRC is to review all Related Party Transactions (RPTs) of the Listed Companies of the Carsons Group, other than those exempted by the Carsons Group RPT Code, prior to the transaction being entered into or, if the transaction is expressed to be conditional on such review, prior to the completion of the transaction.

Policies and procedures

- The RPTRC reviews the relevant Related Party Transactions of the Listed Companies of the Carsons Group and where the Committee decides that the approval of the Board of Directors of the respective Companies are necessary to approve a Related Party Transaction, such Board approval is obtained prior to entering into the relevant Related Party Transaction.
- When reviewing a transaction, the RPTRC would decide whether the proposed transaction is carried out on an arm's length basis irrespective

of whether it is recurrent or non-recurrent in nature.

- Reviewing and approval would be either by meeting of members (subject to quorum being present) or by circulation.
- In determining whether to obtain the approval of the Board of Directors for a Related Party Transaction, the RPTRC will take into account, among other factors it deems appropriate, whether the proposed RPTs pose a conflict of interest to the Directors.

The self-declarations from the Directors and Key Management Personnel are obtained for the purpose of identifying parties related to them. Further, the guidelines which senior management must follow in routing Related Party Transactions to the relevant forum, including transaction threshold values and pricing where applicable have been documented even in the case of once approved recurrent transactions which are of operational nature, which as per the Carsons Group RPT Code need not be repeatedly approved, if within the broad thresholds.

The RPTRC in discharging its function endeavours to ensure that :

- there is compliance with the Carsons Group RPT Code;
- shareholder interests are protected; and
- fairness and transparency are maintained.

The Committee has a criteria for designating Carsons Group Key Management Personnel (KMP) and quarterly disclosures are made by the KMPs so designated, as relevant.

The Related Party Transactions of the Company for the period 1st April 2021 to 31st March 2022 have been reviewed by the Members of the RPTRC and the comments and observations of the Committee have been communicated to the Board of Directors of the Company.

TO THE SHAREHOLDERS OF INDO-MALAY PLC

Report on the audit of the financial statements

Opinion

We have audited the financial statements of Indo-Malay PLC ("the Company"), which comprise the statement of financial position as at 31 March 2022, and the statement of profit or loss, statement of comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Company as at 31 March 2022 and its financial performance and its cash flows for the year then ended in accordance with Sri Lanka Accounting Standards.

Basis for opinion

We conducted our audit in accordance with Sri Lanka Auditing Standards ("SLAuSs"). Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the

financial statements section of our report. We are independent of the Company in accordance with the Code of Ethics issue by The Institute of Chartered Accountant of Sri Lanka ("Code of Ethics") and we have fulfilled our other ethical responsibilities in accordance with the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in the audit of the financial statements of the current period. These matters were addressed in the context of the audit of the financial statements as a whole, and in forming the auditor's opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of

procedures designed to respond to our assessment of the risks of material misstatement of the financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying financial statements.

Key Audit Matter	How our audit addressed the key audit matter
<p>Valuation of unquoted equity investment at Fair Value through Other Comprehensive Income (FVOCI)</p> <p>The Company's financial assets at Fair Value through Other Comprehensive Income (FVOCI) consists of an unquoted equity investment in Shalimar Developments Sdn. Bhd (SDSB). The fair value of the unquoted equity investment is Rs. 10,486.43 Mn at the reporting date and has been valued based on the adjusted net asset basis. SDSB's net assets represent the investment value of its investee, PT Agro Indomas (PTAI) which was determined based on the income approach, using discounted cash flow method. PTAI's investment value significantly depends on the fair value of its palm oil plantation.</p> <p>We determined the valuation of the unquoted equity investment as a key audit matter due to the following:</p> <ul style="list-style-type: none"> • The materiality of the reported balance which represents 98.3% of total assets. • The degree of management judgements, assumptions and estimates associated with valuation of unquoted equity investments at fair value, such as <ul style="list-style-type: none"> • determining the appropriate valuation techniques to be used for the valuation of SDSB's unquoted equity shares and PTAI's palm oil plantation and • use of unobservable inputs such as crude palm oil price ("CPO"), discount rate and yield per hectare in the valuation of PTAI's palm oil plantation, as further disclosed in notes 3 and 8 to the financial statements. 	<p>Our audit procedures included among others:</p> <ul style="list-style-type: none"> • We assessed the competency, capability and objectivity and expertise of the management's external expert engaged for the valuation. • We engaged our internal specialised resources to assist us in evaluating the appropriateness of valuation techniques used by management's external expert and reasonableness of the significant management judgements and assumptions used, in particularly those relating to CPO, discount rate and yield per hectare. • Checked the key data used in the valuation. • We assessed the adequacy of the disclosures made in Notes 3 and 8 in the financial statements.

Other information included in the Company's 2021/22 Annual Report

Other information consists of the information included in the Annual Report, other than the financial statements and our auditor's report thereon. The Management is responsible for the other information.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of management and those charged with governance for the financial statements

Management is responsible for the preparation of the financial statements that give a true and fair view in accordance with Sri Lanka Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SLAuSS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SLAuSS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

Independent Auditors' Report

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of the management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to

the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and

are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on other legal and regulatory requirements

As required by section 163 (2) of the Companies Act No. 07 of 2007, we have obtained all the information and explanations that were required for the audit and, as far as appears from our examination, proper accounting records have been kept by the Company.

The Institute of Chartered Accountant of Sri Lanka membership number of the engagement partner responsible for signing this independent auditor's report is 2440.

1.2 Principal Activities and Nature of Operations

The principal activity of the Company is managing and holding of an investment portfolio.

1.3 Parent Entity and Ultimate Parent Entity

The Company's parent entity is Good Hope Asia Holdings Limited incorporated in Singapore. In the opinion of the directors, the Company's ultimate parent undertaking and controlling party is Bukit Darah PLC which is incorporated in Sri Lanka.

1.4 Date of Authorisation for Issue

The Financial Statements of Indo-Malay PLC for the year ended 31st March 2022 was authorised for issue in accordance with a resolution of the Board of Directors on 30th May 2022.

2. SIGNIFICANT ACCOUNTING POLICIES

2.1 General Accounting Policies

2.1.1 Statement of Compliance

The Financial Statements of Indo-Malay PLC comprises the Statement of Profit or Loss and the Statement of

Comprehensive Income, Statement of Financial Position, Statement of Changes in Equity and Statement of Cash Flows, together with the Accounting Policies and Notes to the Financial Statements.

These financial statements are prepared in accordance with the Sri Lanka Accounting Standards comprising SLFRS and LKAS (hereafter "SLFRS") as issued by the Institute of Chartered Accountants of Sri Lanka, and also in compliance with the requirements of the Companies Act No. 07 of 2007.

2.1.2 Basis of Preparation

The Financial Statements of the Company have been prepared in accordance with Sri Lanka Accounting Standards (SLFRS and LKAS) as issued by Institute of Chartered Accountants of Sri Lanka.

The Financial Statements have been prepared on a historical cost basis, except for the following material items in the statement of Financial Position;

- Financial assets classified under Fair Value through Other Comprehensive Income.

2.1.3 Comparative Figures

Certain comparative figures have been reclassified in order to conform to the presentation for the current period. Such reclassifications were made to improve the quality of presentation and do not affect previously reported profit or equity.

Notes to the Financial Statements

2.2 Changes in Accounting Policies and Disclosures

2.2.1 New and Amended Standards and Interpretations

The accounting policies adopted are consistent with those of the previous financial year except for the changes in accounting policies described in Note 2.2.2.

2.2.2 Standards issued but not yet effective

The new and amended standards that are issued, but not yet effective to the date of issuance of these financial statements are disclosed below.

- SLFRS 17 - Insurance Contracts
- Amendments to LKAS 37 Provisions, Contingent Liabilities and Contingent Assets : Onerous Contracts – Costs of Fulfilling a Contract
- Amendments to LKAS 16 Property, Plant & Equipment : Proceeds before Intended Use
- Amendments to SLFRS 3 Business Combinations : Updating a reference to conceptual framework

While SLFRS 17 is effective for reporting periods beginning on or after 1 January 2023 all the other amendments are effective for the annual periods beginning on or after 1 January 2022.

Amendments to LKAS 37 Provisions, Contingent Liabilities and Contingent Assets : Onerous Contracts – Costs of Fulfilling a Contract

In March 2021, the ICASL adopted amendments to LKAS 37 to specify which costs an entity needs to include when assessing whether a contract is onerous or loss-making.

The amendments apply a “directly related cost approach”. The costs that relate directly to a contract to provide goods or services include both incremental costs and an allocation of costs directly related to contract activities. General and administrative costs do not relate directly to a contract and are excluded unless they are explicitly chargeable to the counterparty under the contract.

The amendments are effective for annual reporting periods beginning on or after 1 January 2022. The Company will apply these amendments to contracts for which it has not yet fulfilled all its obligations at the beginning of the annual reporting period in which it first applies the amendments.

Amendments to LKAS 16 Property, Plant & Equipment : Proceeds before Intended Use

In 25 March 2021, the Institute of Chartered Accountants of Sri Lanka (CA Sri Lanka) issued LKAS 16 Property, Plant and Equipment — Proceeds before Intended Use, which prohibits entities deducting from the cost of an item of property,

plant and equipment, any proceeds from selling items produced while bringing that asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Instead, an entity recognises the proceeds from selling such items, and the costs of producing those items, in profit or loss.

The amendment is effective for annual reporting periods beginning on or after 1 January 2022 and must be applied retrospectively to items of property, plant and equipment made available for use on or after the beginning of the earliest period presented when the entity first applies the amendment.

Amendments to SLFRS 3 Business Combinations : Updating a reference to conceptual framework

In 23 March 2021, the Institute of Chartered Accountants of Sri Lanka (CA Sri Lanka) issued amendments to SLFRS 3 Business Combinations - Updating a Reference to the Conceptual Framework. The amendments are intended to replace a reference to the Framework for the Preparation and Presentation of Financial Statements, issued in 1989, with a reference to the Conceptual Framework for Financial Reporting issued in March 2018 without significantly changing its requirements.

An exception was also added to the recognition principle of SLFRS 3 to

avoid the issue of potential 'day 2' gains or losses arising for liabilities and contingent liabilities that would be within the scope of LKAS 37 or IFRIC 21 Levies, if incurred separately.

At the same time, it was decided to clarify existing guidance in SLFRS 3 for contingent assets that would not be affected by replacing the reference to the Framework for the Preparation and Presentation of Financial Statements.

The amendments are effective for annual reporting periods beginning on or after 1 January 2022 and apply prospectively.

2.3 Summary of Significant Accounting Policies

2.3.1 Conversion of Foreign Currencies

(a) Presentation Currency

The Financial Statements are presented in Sri Lanka Rupees.

(b) Investment Operations in Sri Lanka

The functional currency of the investment operations in Sri Lanka is Sri Lanka Rupees. Transactions in foreign currencies are initially translated into functional currency using the exchange rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies as at the reporting date are translated at the functional currency rate of exchange ruling at that date. The exchange differences arising on translation are taken to the Statement of Profit or Loss. The exchange gains or losses of Fair

Notes to the Financial Statements

Value through Other Comprehensive Income (FVOCI) are taken to Other Comprehensive Income.

2.3.2 Property, Plant and Equipment

Property, plant and equipment are stated at cost, net of accumulated depreciation and accumulated impairment loss. Such cost includes the cost of replacing part of the property, plant and equipment. Other subsequent expenditure is capitalised only when it increases future economic benefits of the related item of property, plant and equipment and the cost can be reliably measured. All other expenditure is recognised in profit or loss as incurred.

Depreciation is calculated on a straight-line basis over the estimated useful lives of the assets, as follows:

Computer	Over 03
Equipment	Years

The carrying values of property, plant and equipment are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable. If any such indication exists and where the carrying values exceed the estimated recoverable amount, the assets are written down to their recoverable amount being the higher of their fair value less costs to sell and their value in use.

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected

from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the Statement of Comprehensive Income when the asset is derecognised.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

2.3.3 Financial Instruments — Initial Recognition and Subsequent Measurement

Financial Assets

Initial Recognition and Measurement

Financial assets within the scope of SLFRS 09 are broadly categorised as financial assets at amortised cost, fair value through profit or loss and financial assets at fair value through other comprehensive income.

The Company determines the classification of its financial assets at initial recognition. All financial assets are recognised initially at fair value plus (in the case of assets not at fair value through profit or loss) directly attributable transaction costs. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

The Company's financial assets include bank balances, short-term deposits, and fair value through other comprehensive income (FVOCI) financial assets.

Subsequent Measurement

The subsequent measurement of financial assets depends on their classification as follows:

(a) Debt Instruments at Amortised Cost

The Company measures financial assets at amortised cost if both of the following conditions are met:

- The financial asset is held within a business model with the objective to hold financial assets in order to collect contractual cash flows and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding

Financial assets at amortised cost are subsequently measured using the effective interest (EIR) method and are subject to impairment. Gains and losses are recognised in profit or loss when the asset is derecognised, modified or impaired.

The Company's financial assets at amortised cost includes bank balances and short term deposits under current financial assets.

(b) Financial Assets classified under Fair Value through Other Comprehensive Income

This category only includes the equity instruments, which the Company intends to hold for the foreseeable future and which the Company has irrevocably elected to classify upon transition. There is no recycling of gains or losses to profit or loss on derecognition and the dividend received as a result of holding this investment will be recognised to profit or loss.

De-recognition

A financial asset is de-recognised when:

- The rights to receive cash flows from the asset have expired
- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, and has neither transferred nor retained

Notes to the Financial Statements

substantially all of the risks and rewards of the asset nor transferred control of it, the asset is recognised to the extent of the Company's continuing involvement in it.

Impairment of Financial Assets

SLFRS 09 establishes a new model for impairment which is a forward-looking expected credit loss model.

The Company assesses at each reporting date whether there is any objective evidence that a financial asset is impaired. The guiding principle of the Expected Credit Loss (ECL) model is to reflect the general pattern of deterioration or improvement in the credit quality of financial instruments. The amount of ECLs recognised as a loss allowance or provision depends on the extent of credit deterioration since initial recognition.

Company presents its Short-term investments and short-term deposits at Amortised Cost. Financial Assets have been assessed under 12-month expected credit loss model. Company holds these Financial Assets at Financial Institutions with high credit ratings and therefore believes no evidence exist to make impairment provisions.

Financial Assets categorised as Fair Value through OCI

The fair value of financial instruments that are traded in active markets at each reporting date is determined by reference to quoted market prices or dealer price quotations (bid price for

long positions and ask price for short positions), without any deduction for transaction costs. For financial instruments not traded in an active market, the fair value is determined based on income approach that estimates the fair value by discounting projected cash flows in a discrete projection period to present value.

Financial Liabilities

Initial Recognition and Measurement

The Company determines the classification of its financial liabilities at initial recognition. All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings, net of directly attributable transaction costs. The Company's financial liabilities include other payables.

Subsequent Measurement

The subsequent measurement of financial liabilities depends on their classification as follows:

Other Payables

Liabilities are recognised for amounts to be paid in the future for assets or services received, whether billed by the supplier or not. The financial liabilities are subsequently measured at amortised cost using the (Effective Interest Rate) EIR method.

De-recognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled, or expired.

Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount is reported in the statement of financial position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

2.3.4 Provisions

Provisions are recognised when the Company has a present legal or constructive obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, where appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as finance cost.

2.3.5 Income

Gains and Losses

Net gains and losses of a revenue nature arising from the disposal of other noncurrent assets, are accounted in the Statement of Profit or Loss, after deducting the carrying amount from proceeds on disposal of such assets and the related selling expenses.

Gains and losses arising from activities incidental to the main

revenue generating activities and those arising from a group of similar transactions, which are not material are aggregated, reported and presented on a net basis.

Interest Income

Interest income is recorded as it accrues using the effective interest method.

Dividend Income

Dividend income is recognised when the Company's right to receive the payments is established.

Others

Other income is recognised on an accrual basis.

2.3.6 Expenditure Recognition

Expenses are recognised in the statement of profit or loss on the basis of a direct association between the cost incurred and the earning of specific items of income. All expenditure incurred in the running of the business has been charged to the Statement of Profit or Loss.

For the purpose of presentation of the Statement of Profit or Loss, the Directors are of the opinion that "function of expenses" method presents fairly the elements of the Company's performance, and hence such presentation method is adopted.

Others

Other expenses are recognised on an accrual basis.

Notes to the Financial Statements

2.3.7 Taxation

(a) Current Income Tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date.

Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Liability to taxation of the Company is made after claiming relief available in terms of the Double Taxation Agreement entered into between the Governments of Malaysia and Sri Lanka.

(b) Deferred Taxation

Deferred tax is provided on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes. Deferred tax liabilities are recognised for all temporary differences, except:

- Where the deferred tax liability arises from an asset or liability in a transaction that affects neither the accounting profit nor the taxable profit.

Deferred tax assets are recognised for all deductible differences, carry forward of unused tax credits and

unused tax losses, to the extent that it is probable that taxable profits will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilised, except:

- Where the deferred tax assets relating to deductible temporary differences arises from the initial recognition of an asset or liability in a transaction that affects neither the accounting profit nor the taxable profit.

The carrying amount of deferred tax assets are reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow the deferred tax assets to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax assets to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the assets are realised or the liabilities are settled, based on tax rates and tax laws that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside the Statement of Profit or Loss is recognised outside the Statement of Profit or Loss. Deferred tax items are recognised in correlation to the underlying

transaction either in the Statement of Profit or Loss or Statement of Other Comprehensive Income.

2.3.8 Current versus Non-Current Classification

The Company presents assets and liabilities in the Statement of Financial Position based on current/non-current classification. An asset is classified as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Company classifies all other liabilities as non-current.

2.3.9 Fair Value Measurement

The Company measures equity instruments at fair value at each reporting date. Fair value related disclosures for financial instruments are summarised in the following notes;

	Notes
Disclosures for valuation methods, significant estimates and assumptions	Note 8
Quantitative disclosures of fair value measurement hierarchy	Note 20
Investment in quoted/unquoted equity shares	Note 8
Financial instruments	Note 20

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company.

Notes to the Financial Statements

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets for which fair value is measured or disclosed in the Financial Statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets that are recognised in the Financial Statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation

(based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

External valuers are involved for valuation of unquoted investments. Involvement of external valuers is decided upon annually by the Management after discussion with and approval by the Company's Audit Committee. Selection criteria include market knowledge, reputation, independence and whether professional standards are maintained. The Management decides, after discussions with the Company's external valuers, which valuation techniques and inputs to use for each case.

At each reporting date, the Management analyses the movements in the values of assets which are required to be remeasured or reassessed as per the Company's accounting policies. For this analysis, the Management verifies the major inputs applied in the latest valuation by agreeing the information in the valuation computation to contracts and other relevant documents.

The Management, in conjunction with the Company's external valuers, also compares the change in the fair value of each asset with relevant external sources to determine whether the change is reasonable.

The Management presents the valuation results to the Audit Committee and the Company's independent auditors. This includes a

discussion of the major assumptions used in the valuations.

For the purpose of fair value disclosures, the Company has determined classes of assets on the basis of the nature, characteristics and risks of the asset and the level of the fair value hierarchy as explained above.

2.3.10 Cash and Cash Equivalents

Cash and Cash Equivalents in the Statement of Financial Position comprise cash at banks and short-term deposits which are subject to an insignificant risk of changes in value.

For the purpose of the Statement of Cash Flows, cash and cash equivalents consist of bank balances and short-term deposits with a maturity of three months or less.

2.3.11 Segment Reporting

An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Company's other components. All operating segments' operating results are reviewed regularly by the senior management to make decisions about resources to be allocated to the segment and assess its performance, and for which discrete financial information is available.

Segment results that are reported to the senior management and board of directors include items directly

attributable to a segment as well as those that can be allocated on a reasonable basis.

Company operates under one single segment.

3. SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of the Financial Statements requires management to make judgements, estimates and assumptions that affect the reported amounts of income, expenses, assets and liabilities, and the disclosure of contingent liabilities, at the reporting date. However, uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

The estimates and underlying assumptions are reviewed regularly. Revisions to accounting estimates are recognised in the period in which the estimate is revised, if the revision affects only that period or in the period of the revision and future periods, if the revision affects both current and future.

Deferred Taxes

Deferred tax asset of Rs. 0.99 Mn (2021: 0.98 Mn) as at 31 March 2022 has not been recognised on the carried forward tax losses as the Company is unable to assess with reasonable certainty that taxable profits would be available to recover the deferred tax asset in the foreseeable future. If the Company

Notes to the Financial Statements

recognise deferred tax asset, profit and equity would have increased by Rs. 0.99 Mn (2021: 0.98 Mn). Further details on deferred taxes are disclosed in Note 5.

Fair Value Measurement of Assets classified under FVOCI

The Company engaged an independent valuation specialist to assess fair value of unquoted equity shares as at 31 December 2021 and 31 December 2020. Unquoted equity shares of Shalimar Developments Sdn. Bhd. has been valued based on adjusted net asset basis. Such net assets represent the investment value of PT Agro Indomas (PTAI) which was determined based on income approach using discounted cash flow method. A degree of judgement is required in establishing fair value and changes in assumptions could affect the reported fair value. The key assumptions used to determine the fair value of the unquoted equity shares and sensitivity analysis are provided in Notes 8 and 20.

Going Concern

The outbreak and spread of the coronavirus globally since January 2020 have caused disruption to business and activities, and uncertainty to the global economy. Quarantine measures taken by respective countries widely

affected the Trust's operations directly or indirectly linked to industry sectors such as Financials, Agriculture, Manufacturing, Tourism, Transportation, Construction, Trade, Services, Consumption.

In preparing these financial statements, based on available information, the management has assessed the existing and anticipated effects of COVID-19 on the Company and the appropriateness of the use of the going concern basis.

Having presented the outlook to the Board, the Directors are satisfied that the Company has adequate resources to continue in operational existence for the foreseeable future and continue to adopt the going concern basis in preparing these financial statements.

4. PROFIT BEFORE TAX

Profit before tax is stated after charging all expenses including the following:

The sole equity investment of SDSB is in PT Agro Indomas (PTAI), an oil palm plantation company based in Indonesia, in which it has a controlling interest. The Company has designated its investment in SDSB as a financial assets classified under Fair Value through OCI, and is measured at fair value, the basis of which is detailed in Note 8.2 below.

8.1.b Financial Assets classified under Fair Value through OCI — Quoted Equity Shares

The Company holds a non-controlling interests of 2.21% (2021: 2.21%) in Shalimar (Malay) PLC. The fair value of the said investment is determined by reference to published price quotations in Colombo Stock Exchange.

8.2 Fair Value of Unquoted Equity Shares

The Company obtained the services of PricewaterhouseCoopers (Private) Ltd (PwC Sri Lanka) to carry out an independent indicative fair market valuation of the equity interest in the unquoted investment in SDSB as at valuation date of 31 December 2021. Unquoted equity shares of Shalimar Developments Sdn. Bhd. has been valued based on adjusted net asset basis. Such net assets represent the investment value of PT Agro Indomas (PTAI) which was determined based on income approach using discounted cash flow method.

The fair value of the equity investment of SDSB in PTAI has been valued based on the following;

- (a) Estimated economic life of the oil palm plantations of PTAI is 26 years (including the immature period).
- (b) Consider one planting cycle (i.e. no replantation at the end of the economic life).

- (c) Yield per hectare based on year of planting, maturity profile and terrain.
- (d) CPO ex-mill prices in FY 2022/23 is estimated to be USD 658/MT and this is assumed to change in line with the World Bank CPO Price forecast (Oct 2021) adjusted for the Indonesia Palm oil levy that prevailed, i.e until FY 2040/41. After FY 2030/31 prices are assumed to remain unchanged.
- (e) Weighted average cost of capital (WACC) of 8.88%.
- (f) Indonesian corporate taxation rate at 22% in FY 2022 and beyond.
- (g) Indonesian Inflation assumed approximately 3% p.a.

19. FINANCIAL RISK MANAGEMENT

Objectives and Policies

The Company's principal financial assets include bank balances and short-term deposits that derive directly from its operations. The Company also holds financial assets at Fair value through other comprehensive income. The Company's principal financial liabilities comprise other payables.

The Company is exposed to market risk, credit risk and liquidity risk. The Board of Directors reviews and agrees policies for managing each of these risks, which are summarised below.

(a) Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market prices. Market risk of the Company comprises interest rate risk, foreign currency risk and equity price risk.

(b) Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market interest rates. The Company is not exposed to interest rate risk as there are no financial assets and financial liabilities with floating interest rates at the reporting date.

(c) Foreign Currency Risk

Foreign currency risk is the risk that the value of financial instruments will fluctuate due to changes in foreign exchange rates.

Notes to the Financial Statements

(d) Equity Price Risk

The Company's listed and unlisted equity securities are susceptible to market price risk arising from uncertainties about future values of the equity price and key assumptions used to fair value listed and unlisted equity securities.

At the reporting date, the unlisted equity security is fair valued at Rs. 10,486 Mn (2021: Rs. 6,896 Mn). Sensitivity analysis of this investment has been provided in Note 8.

The following table demonstrates the sensitivity of the cumulative changes in fair value to reasonably possible changes in equity prices, with all other variables held constant. The effect of decreases in equity prices is expected to be equal and opposite to the effect of the increases shown.

	Change in Equity Price 2022	Effect on Equity 2022 Rs. '000	Change in Equity Price 2021	Effect on Equity 2021 Rs. '000
Quoted Equity Shares				
Shalimar (Malay) PLC	+10%	14,447	+10%	14,372

(e) Credit Risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Company is exposed to credit risk primarily from its deposits with Banking Institutions. The Company seeks to limit its credit risk with respect to banks by dealing with reputable banks.

With respect to credit risk arising from the financial assets of the Company, the Company's exposure to credit risk arises from default of the counterparty, with a maximum exposure equal to the carrying amount of these instruments as follows:

<i>As at 31 March</i>	2022 Rs. '000	2021 Rs. '000
Bank Balances	1,354	758
Short Term Deposits	2,079	1,516
