CHAIRMAN'S MESSAGE

Taxation policy is a key driver of business and hence should follow a consistent and predictable trend, driven by over- arching policy objectives. This gives businesses an opportunity to plan their strategies in the context of predictable tax policies. Inconsistency in taxation policy creates havoc in the planning cycles of companies which have corporate plans that span well beyond the political terms of governments.

Dear Shareholders,

It is with a sense of hope and expectation that I welcome you to the 64th Annual General Meeting of the Company. I mention this specifically, because we believe that our country is at a critical turning point where its economic development is concerned. Having successfully overcome a debilitating civil conflict, Sri Lanka embarked on a concerted development effort, which now needs to be supported by deep rooted economic reforms and structural changes which would help take us to the next level of stability and prosperity.

As a country we need to have the courage to recognise that remaining entrenched in inefficiency, debt dependence and poor competitiveness in relation to the rest of the world would not help us to give our future generations a nation to be proud of. To create a better economic platform for the next generation, we have to improve the efficiencies of our institutions, undertake policy reforms that reduce the burden on tax payers and create a vibrant economy that offers diverse and high quality job opportunities for our youth, whilst taking care of our fundamental pillars of a good education and healthcare system for our people. There can be no more time lost in doing this.

As a part of the capital markets of Sri Lanka, we well recognise that capital markets are a facilitative industry in driving enterprise forward in a country. So if enterprises do not grow, expand and constantly demand new and innovative forms of capital, the capital markets cannot exist in isolation. Therefore, we feel compelled to comment on the general state of the economy and business, from which the demand for capital markets services is derived.

Taxation policy is a key driver of business and hence should follow a consistent and predictable trend, driven by over- arching policy objectives. This gives businesses an opportunity to plan their strategies in the context of predictable tax policies. Inconsistency in taxation policy creates havoc in the planning cycles of companies which have corporate plans that span well beyond the political terms of governments. Thus taxation and revenue generation policies that address the long term needs of the country have to be articulated and executed

*2016 Q1 GDP figure was measured using a 5% growth rate as forecasted by the IMF

Sources: Central Bank of Sri Lanka/ International Monetary Fund/ Colombo Stock Exchange

consistently. All other forms of state control over private enterprise should similarly be articulated and practised, namely price regulation, volume regulation, licensing regimes, and all forms of operating limits. They should not in any way be subject to short lived quick fixes that change for opportunistic political gains. Any government which truly believes that the private sector is the engine of growth should avoid creating uncertainty to investors who have committed tremendous amounts of capital on the basis of policy continuity.

State owned enterprises that make losses, bleed tax payers of hard earned money. Losses of these entities essentially therefore constitute an exercise in passing the costs of waste & corruption and the burdens of one group of people to a different group of people, and serves no one in particular. So whilst giving due consideration to protection of worker rights and consumer interests, state enterprise reform will have to be undertaken to have a lasting impact on economic efficiency.

The chronic balance of payments deficits we have faced for decades is not an easily correctable problem. Essentially its end result is an impoverished nation vis a vis other developing countries whose citizens hold currencies that bring them more prosperity. In correcting this situation, we have become indebted to the rest of the world in a growing measure and this makes the cost of taking on more debt higher. To address the problem we need better quality, more diverse sources of

foreign exchange other than from the export of cheap domestic workers which is now our main source of foreign earning. Going forward, these low level jobs should transform to manufacturing or service industry based jobs based locally, that earn foreign dollars.

When these structural and deep rooted issues get properly addressed, along with other specific sector based reforms, we would naturally see a more predictable and stable environment which businesses would find conducive for investment.

The catalyst for capital market growth thereby becomes automatically activated, with demand for capital increasing. Thus we would see critical indicators like market capitalisation to GDP ratio increasing to levels of 70%-80% as more economic activity gets translated to capital markets. Post war listed company earnings growth has overshoot both GDP and the index growth, thus demonstrating the potential of the market to grow.

The poor state of markets in 2015/16, reflected in our performance this year, with our discretionary portfolio declining (prior to distribution of dividends) 6.39%, although out performing the market by 4.58%, and profits declining 68.15% to 611.2 mn. With our strategic holding, declining 48.38%, the total portfolio value declined (prior to distribution of dividends) by 27.67%.

CHAIRMAN'S MESSAGE

Nevertheless Guardian continued to invest in developing its people and fund management infrastructure in anticipation of future growth needs of its business model. A joint venture with Small Enterprise Assistance Funds based in the US, was entered into recently which marks Ceylon Guardian's entry into a larger scale private equity operation. Our JV partner brings in expertise in managing and transforming companies via private equity investments. It has invested more than USD 387 Mn to date in more than 400 projects via 35 funds spread across 25 countries. As a joint venture which attempts to create value to the small and medium enterprise sector of the country, our shared vision with our JV partner is to help SMEs grow by providing access to markets, technology and good management practises derived from collective experiences drawn across our operations.

In other related business expansions, we are happy to note the 109% growth in our unit trust business which attempts to bring capital market investments within reach of the majority. Much work remains to be done in spreading awareness and knowledge of this product and its ease of use for the intelligent layman investor. The fund management and marketing teams of the unit trust company have worked extensively with investor groups and distribution channels in this regard. In support of successive policy makers recommendations to make Sri Lanka a regional financial centre, Guardian now considers itself ready to explore investment opportunities outside the country and integrate with regional markets. Outdated exchange control laws however, stand in the way of building the competitive advantage we seek as an investment house, since no capital can be deployed out of this country at the moment.

I wish to conclude by thanking the staff for their dedication & enthusiasm amidst difficult conditions, our intermediaries & service providers for their support, and the regulators for the efforts to develop the industry. Most importantly I thank our clients and investors who placed their faith in Guardian and its partner companies; and our shareholders who have remained confident of our ability to deliver results.

I convey my appreciation to my board members and the members of the Audit Committee, Remuneration Committee, Nomination Committee and Related Party Transactions Review Committee for their diligence. We will continue to build our business for long term opportunities whilst managing the volatilities of the short term with care.

(Sgd.)

CEYLON GUARDIAN GROUP PORTFOLIO

Ceylon Guardian practices a disciplined investment process which promotes cross team collaboration and individual experience. The fund managers and research team collectively scrutinise the portfolio holdings and potential trading opportunities when arriving at investment decisions.

The Ceylon Guardian portfolio consists of a discretionary segment which is actively managed and a non-discretionary segment which consists of the strategic holdings of the group. The discretionary component amounts to Rs.12.27 billion while the strategic holding is valued at Rs.7.15 billion. The discretionary segment is actively managed using a bottom up stock selection approach where investee companies are evaluated by the fund management team using fundamental research and the team's extensive experience in capital markets.

Ceylon Guardian practices a disciplined investment process which promotes cross team collaboration and individual experience. The fund managers and research team collectively scrutinise the portfolio holdings and potential trading opportunities when arriving at investment decisions. Fundamental research is conducted on companies using cash-flow and relative valuation models.

Portfolio composition	As at			As at 31-Mar-16 (Dividend adjusted)*	Dividend adjusted performance

MANAGEMENT DISCUSSION & ANALYSIS

The total portfolio was valued at Rs.19.43 billion as at 31st March 2016 compared to Rs.27.34 billion from the previous year, an annual dividend adjusted negative performance of 27.67%. The discretionary portfolio amounting to Rs.12.27 billion as at 31st March 2016 (prior to distribution of dividends)

declined by 6.39% compared to the benchmark All Share Price Index which fell by 10.97% for the financial year. The discretionary portfolio despite falling in value was able to outperform the All Share Price Index by 4.58%.

Investment update

The financial year ending March 2016 proved to be a jittery year for global and domestic equities. Investor confidence was drained by a mix of domestic and international events leading markets into bearish territory. Domestic concerns focused on parliamentary elections, fiscal budget deficits and the economy navigating the edge of a balance of payments crisis. On the global front, persistent concerns about the state of the global economy, volatile oil prices and an initial hawkish US federal reserve tempered enthusiasm. All these factors led to the Colombo Stock Exchange enduring weak investor sentiment and lower activity.

Paradoxically, the equity market slow-down has improved return prospects for the medium to longer term as we see fundamental value on a cross section of stocks remaining intact. Ceylon Guardian being a long term equity manager used the decline in markets as an opportunity to increase its equity exposures. During the year we were net buyers in the Colombo Stock Exchange with purchases for the review period totalling Rs. 2.9 billion compared to sales of Rs. 2.0 billion. Further during the current financial year our purchases have further grown by a net of Rs 0.42 billion.

MANAGEMENT DISCUSSION & ANALYSIS

Leisure

Retail and property

Looking at the portfolio, the banking stocks were significant detractors to both the portfolio and the All Share Price Index during the review period. Despite strong loan growth and improved cost management, the banks especially came under large scale selling pressure from foreign investors due to the emerging market sell-off. Large weights in our portfolio from this sector being Commercial Bank, Hatton National Bank, Sampath Bank fell by 24.12%, 10.35% and 10.23% respectively compared to the All Share Price Index fall of 10.97%. Our investment approach helped us weather the storm and we maintain these investments which remain fundamentally sound and undervalued.

Top five holdings

As value investors, we saw this decline as an opportunity to accumulate shares with strong fundamentals while their share prices plunged. The portfolio maintains a large exposure to Commercial Bank and further bought Rs. 260 million over the period under review. Commercial Bank being the largest listed bank with 264 branches offers full scale banking solutions focused on SME and Trade Finance. The bank is positioned well to take advantage of the economic growth potential with a lending mix of 40% corporate and 60% retail and SME loans. Furthermore, the bank's lucrative expansion into Bangladesh which accounts for 10% of net profit makes it the only private bank to own branches out of Sri Lanka. We expect reduced

Company	Market value of the Holding ('000)	Holding as a % of Discretionary portfolio	Ownership stake %
John Keells Holdings PLC	1,141,890	9.30	0.65
Distilleries Company of Sri Lanka PLC	902,957	7.36	1.46
Commercial Bank of Ceylon PLC	891,033	7.26	0.87
Sampath Bank PLC	859,884	7.01	2.21
Hatton National Bank PLC	811,442	6.61	1.23
Total	4,607,206	37.54	

loan growth next year after a bumper year of 25% growth in advances in 2015. The banks large bond portfolio has recently experienced significant mark to market losses with the spike in interest rates. However, we feel this will normalise once the economy eventually recovers from its Balance of Payment concerns.

We remain upbeat with regard to our investment in Hatton National Bank and further increased exposure and bought Rs. 298 million. With an asset base of Rs. 757 billion the bank is the second largest listed bank with a lending focus on SME and retail segment. The bank has performed well across its key

Food, beverage and consumer goods

Telecommunications

Sector Exposure

indicators for 2015 relative to peers. A renewed focus on asset quality and overall efficiency of the bank had contributed well for the financial results for 2015.

We had expected interest rates to increase as a result of higher consumption imports, capital outflows and external debt repayment. Although, this generally has a positive impact on bank net interest margins (NIMs) there are repercussions on its counterpart leasing sector NIMs. Furthermore, cyclical policy actions tended to focus on deterring vehicle imports through reducing Loan to Value ratios and increasing import duties on

this sector. With this in mind we exited our positions in Nations Trust Bank which had the largest leasing sector exposure in its loan book of 25% compared to other banks which averaged around 8%.

Another large weight in the discretionary portfolio which was a significant detractor in terms of stock performance, was John Keells Holdings (JKH), a large conglomerate with main contributing sectors being transport, leisure, property development, consumer food & retail and financial services. The share price decline was also greatly influenced by foreign selling. Key performing business segments in prior years such as transport and leisure have reduced in contribution to growth, and the success of the USD 850 million integrated resort project (Waterfront) remains critical to the group. However, the consumer foods and retail segments had a strong year with increased consumption patterns witnessed across the economy. Our positions in the portfolio for this stock were reduced at a slower pace this year compared to the prior year due to price weakness. In terms of strategy we remain neutral on the stock as we continue to watch and study developments in the Waterfront project.

Our holdings in Cargills contributed significantly to the outperformance over the All Share Price Index with the share price recording a 9.49% return in the financial year. The company showed very strong results arising from its core

MANAGEMENT DISCUSSION & ANALYSIS

retail and manufacturing businesses with improved consumer spending from higher disposable incomes. With GDP per capita expected to increase as Sri Lanka's development accelerates, we expect the market share of modern trade to expand from its current 16% levels closer to Indonesia, Thailand and Malaysia which have market shares of 38%, 46% and 48% respectively.

Some new additions to the portfolio from the Insurance sector included Ceylinco Insurance Non-voting and Peoples Insurance. Ceylinco Insurance is the market leader in Life insurance and second largest player in the Non-life market. The company displayed impressive improvements in its claims and expense ratio. Peoples Insurance shows significant competitive advantages by leveraging off its giant parent companies Peoples Leasing and Peoples Bank.

More recent positions which are currently being built in non banking investments are Softlogic Holdings, a diversified conglomerate with a strong healthcare and retail business exposure, as well as a Tokyo Cement which will benefit from the construction drive.

Distilleries Company of Sri Lanka now features amongst our top five holdings, with benefits expected to accrue to the alcohol industry due to the curtailment of non tax paid spirits from infiltrating the market. Furthermore, the higher incidence of tax on beer after the recent budget, has caused consumers to switch to harder alcohols, abandoning the movement previously shown towards softer alcohols. We have seen Distilleries volumes increase as a result. And although competition has increased due to new entrants to the industry and the resultant compression of margins, profitability overall is seen to be growing.

Financial Review and Shareholder Returns

Ceylon Guardian Group reported a profit after tax of Rs. 611.2 mn for the year ended 31st March 2016 compared to Rs. 1,919.3 mn the previous year. The decrease of group profit by 68 % is a reflection of the subdued market activity when compared with last year. The realisation of capital gains on disposal of stocks in the group portfolio is the key contributor towards the group profit. However, during the period under review, it was Rs. 621.4 mn recorded as "Net gain from disposal of available for sale financial assets" whereas, it was Rs. 1,367.9 mn in previous financial year.

The net fair value losses on instruments held as "fair value through profit or loss financial assets" amounts to Rs. 211.6 mn for the current year due to the falling in market prices of equity shares, as opposed to the net gain of Rs. 194.9 mn for last year. The impairment loss on account of fall in fair value of instruments held as "available for sale financial assets" which is either significant or prolonged, amounts to Rs. 95.2 mn (2015 - Rs. 81.7 mn) for the period under review.

Net change in fair value of available for sale financial assets, which is the main component of other comprehensive Income, amounts to negative Rs. 7.59 bn compared to positive Rs. 2.73 bn recorded in the previous year. A significant contributor to the negative fair value change is the Strategic Investment which experienced a share price drop of 48% and is the single long term non-discretionary holding by the Group, reflecting a loss of Rs. 6.7 bn in the mark to market valuation, recognised against the comprehensive income of the Group.

This strategic investment represents the value of the Carsons oil palm business to which it has heavy exposure. The price drop reflects the weak state of global commodity markets and price levels hitherto not seen for palm oil, the reduced but still prevalent rupiah devaluation / dollar appreciation impact on foreign loans held by the Carsons plantation sector. The negatives affecting this sector and hence the investment, are mostly beyond the control of the management and subject to recovery resulting from global commodity and regional trends.

The Company proposes a dividend of Rs. 3/- per share as final, which is to be approved by the Shareholders at the Annual General Meeting. The Company has been maintaining a consistent dividend to match shareholder expectations.

The net asset value depreciation of the Group's total portfolio was Rs. 7.9 bn during the financial year under review (Rs.6.7 bn on account of strategic and Rs. 1.2 bn on account of the discretionary portfolio), against an appreciation of Rs. 3.1 bn recorded in the last financial year (of which Rs. 1.8 bn was for the strategic portfolio and Rs.1.3 bn for the discretionary). The net asset value per share (NAV) amounted to Rs. 181.77 (2015 - Rs. 257.65) which is based on fair value of its portfolio.

As at 31st March	2016	2015	Change %
ASPI	6,072	6,820	(11)
NAV per share (Rs.)	181.77	257.65	(29)
Market price per share (Rs.)	119.70	184.00	(35)
Discount of NAV to market price per share	35%	29%	

However, the Company's share has been trading at a discount in the CSE over the past years. As of 31st March 2016, the market price of the Company was at Rs. 119.70 recording a drop of 35% for the year, and still trades at a discount of 35% to the NAV. Shareholder wealth depreciation during the year was 33.31 % taking into account both share price movement and dividend for the year.

our future view of markets

Looking ahead the global economic pick-up is expected to be very gradual with risks tilted towards the downside. The fragile recovery in advanced economies is expected to continue with emerging market economies to experience very divergent prospects. Three aspects will dominate global transitions which include China's shift to a more consumption and service economy (from current investment and manufacturing), price movements in commodities and gradual tightening in the US economy while other central banks delve further into monetary easing.

We expect the domestic economy to gradually emerge out of its balance of payment concerns. A drive on fiscal consolidation will also see the island creating a more sustainable platform for growth. With recent tightening policies introduced by the Monetary Board of Sri Lanka we expect credit growth to moderate and inflation to remain in mid-single digit levels. This should reduce upward pressure on the yield curve and as a result we expect to see interest rates moderate in the medium term.

With the Sri Lankan economy expected to stabilise in the next financial year we expect more confidence amongst investors. An increased appetite for risky assets can result in a recovery in the All Share Price Index from recent market corrections. In the medium term we expect a higher growth momentum for the economy with the implementation of proposed reforms and development plans which would flow through into capital markets. Uncertainty still prevails on the timing of a global recovery and may result in mixed movements of foreign interest in the Colombo Stock Exchange.

MANAGEMENT DISCUSSION & ANALYSIS

OUR CAPITAL MARKETS BUSINESSES

From left to right

Fund MANAGEMEnT TEAM: Sashika Wickramaratne, Asanka Jayasekara, Sumith Perera, Crishani Perera

Our discretionary services are supported by an individual fund manager for each account and a very structured decision process to which the entire team gives inputs. Performance is managed by the designated fund manager once again with careful review and input monthly by the team. Compliance with client objectives and policy is assured through scrutiny by the audit team. Guardian adds critical value to its clients through its research insights and policy views.

Discretionary portfolio management services

Ceylon Guardian provides customised portfolio management solutions which span across the equity and fixed income asset classes. Leveraging from the strength of Ceylon Guardian's own resources and expertise, customised client portfolios have achieved superior performances with all client returns above the stipulated benchmarks. The AUM (assets under management) from the discretionary client portfolio business has grown to Rs.3.88 billion as at 31st March 2016. This segment of the business is a growing component for Ceylon Guardian, which generates supplementary fee income for the company and adds to synergies in building industry networks and clients.

Our discretionary portfolio services are supported by an individual fund manager for each account and a very structured decision process to which the entire team gives inputs. Performance is managed by the designated fund manager once again with careful review and input monthly by the team. Compliance with client objectives and policy is assured through scrutiny by the audit team. Guardian adds critical value to its clients through its research insights and policy views.

Private equity

The portfolio value in Guardian Capital Partners PLC (GCP), the Private Equity investment arm of the Guardian Group, stood at Rs. 221 Mn in equities consisting of 5 companies. We made an investment of Rs. 10 Mn into Kashmi Singapore Pte Ltd during the year. LVL Energy Fund Limited is the largest holding, followed by Expolanka Holdings and Access Engineering. We continue to hold the stakes in the Expolanka and Access Engineering despite them being listed, as the prices seen in the market did not justify exiting these holdings.

Portfolio Composition	Rs. Mn	%
LVL Energy Fund Limited	75	34%
Expolanka Holdings PLC	48	22%
Access Engineering PLC	48	22%
Hsenid Business Solutions (Pvt) Ltd	40	18%
Kashmi Singapore Pte Ltd	10	5%
	221	100%

LVL Energy Fund Limited

LVL Energy Fund is an energy focused investment vehicle and a subsidiary of Lanka Ventures PLC. The company invests in renewable and non-renewable energy projects in partnership with industry leaders in the power generation and engineering, procurement & construction (EPC) contracting segments. At present the company has invested in a total capacity of 136.6Mw, of which 104.4Mw is accounted for by thermal plants located in Bangladesh. The balance capacity is located in Sri Lanka of which 15.6Mw is in wind and the balance is in hydro power plants.

Expolanka Holdings PLC

Expolanka is one of the leading freight forwarders in the South Asian region, specialised in the garments/apparel vertical. SG Holdings Global PTE LTD, a leading logistics company in Japan, is the majority shareholder of the company with a 51.4% ownership stake. SG Holdings is working together with the founding shareholders to further the company's growth in the freight and logistics space. The restructuring process the company embarked on has achieved the desired results, and management hopes to complete the process within the next financial year. The exposure to the regional apparel industry through valuable international partnerships, though sensitive

MANAGEMENT DISCUSSION & ANALYSIS

The first initiative with SEAF would be to launch a Sri Lanka focused Private Equity fund, with a broad mandate to invest across the private equity space. SEAFs networks, experience and knowledge base would enable us to add significant value to investee companies in areas such as building market access, transfer of proven technologies to improve operations, product & services, identifying and rectifying managerial and operational deficiencies, facilitating the growth of the entrepreneurs & management teams via provision of knowledge, networks and access to regional players etc.

to global economic forces, provides exposure to a competitive and scalable business model.

Access Engineering PLC

Access Engineering PLC (AEL) is engaged in construction and real estate businesses. AEL is one of the leading C1 contractors in the country involved in construction of buildings, roads & highways, water & waste water management, bridges & flyovers, harbours & marine work, dredging & reclamation, telecommunication, irrigation & land drainage, and piling. Given the infrastructure development thrust in Sri Lanka, exposure to AEL would enable us to benefit from the growth trends in this sector.

HSenid Business Solutions (Pvt) Ltd

HSenid develops and markets human resource management software, delivering solutions via on-premise and software as a service (SaaS) platforms. The company also offers HR outsourcing services. Whilst being the market leader in Sri Lanka, the company also derives over 25% of its revenue from overseas markets, mainly from the African region, India and Malaysia. The company is in the process of investing and building these overseas markets to further penetrate and improve market share, a key driver of its future growth.

Kashmi Singapore Pte Ltd

A company based in Singapore, Kashmi has developed a Peer to Peer mobile payment solution with embedded social media functionality, which enables cash transfers between individuals and vendors through a mobile app. The company was founded by a group of young Sri Lankan entrepreneurs, operating out of

Singapore and Sri Lanka. The company will initially launch the product in Singapore and then it hopes to expand into other ASEAN countries like Malaysia and Indonesia. The promoters were funded by 'Turn 8', which is an incubator based in Dubai, and 'Startupbootcamp Fintech Singapore' a financial innovation focused accelerator in Singapore, during the product development stage. The funds raised at the seed round will be used to fund the market development strategy of the company.

Consolidated performance of the portfolio companies

The portfolio companies generated consolidated revenues of Rs. 55.7 Bn for the 9 months ending December 2015, an increase of 9.5%. Consolidated net profit increased by 28.5%, to Rs. 3 Bn (Figure 2).

Figure 2: Portfolio Company Performance	Annual		9 months	
	2013/14	2014/15	Dec-14	Dec-15
Rs. Mn				
Revenue	70,135	69,478	50,838	55,690
Net profit	4,262	3,232	2,373	3,049
Revenue growth		-0.90%		-6.30%
Profit growth		-24.20%		28.50%

All companies contributed to the top and bottom line growth recorded for the 9 months for FY 2016.

Joint Venture with Foreign Private Equity Manager

In April 2016, Guardian Capital Partners entered into a joint venture agreement with Small Enterprise Assistance Funds (SEAF), a PE fund manager registered in the state of New York in the United States of America. The JV will be for the purpose of creating and managing a dedicated PE fund for Sri Lanka in collaboration with Guardian. SEAF commenced operations in 1989, launching its first fund in 1992 in Poland and has now expanded into 25 Emerging and Frontier markets across Asia, Africa, Central & Eastern Europe and Latin America. It has invested more than USD 387 Mn to date in more than 400 projects via 35 investment vehicles/funds. It has close to USD 700 Mn in committed capital, which has been raised from investors such as Development Financial Institutions; IFC (International Finance Corporation), DEG (German Investment and Development Corporation) and FMO (Netherlands Development Finance Company), development focused sovereign funds; Swedfund (Swedish Government Development Financier), Finnfund (A Finnish State Owned Development Finance Company), Qatar Development Bank and Norfund (Norwegian Investment Fund for Developing Countries), and institutional investors such as insurance companies (New York Life, Life Insurance Corporation of India etc.).

Their vast experience and track record in Frontier Markets will directly translate to Sri Lanka, given the similarity in market maturity, deal sizes and similarities in economic and business conditions. We believe that SEAF will enable us to vastly improve our knowledge and capabilities in the PE business, whilst also contributing to the development of the industry as a whole in the country. SEAF has committed to place full time resources in the country and we look forward to a fruitful partnership going forward,

The first initiative with SEAF would be to launch a Sri Lanka focused Private Equity fund, with a broad mandate to invest across the private equity space. SEAFs networks, experience and knowledge base would enable us to add significant value to investee companies in areas such as building market access, transfer of proven technologies to improve operations, product & services, identifying and rectifying managerial and operational deficiencies, facilitating the growth of the entrepreneurs & management teams via provision of knowledge, networks and access to regional players etc.

The joint venture will be executed via an asset management company. Guardian Capital Partners (GCP) will own 41.7% of the company. The JV Company in turn will be appointed as the fund manager of the proposed private equity fund. The domicile of the fund will be determined based on regulatory and taxation considerations. We hope to attract funds from local and foreign institutions. GCP plans to participate in the fund as an investor. GCPs investment in the fund will send a strong signal to and build confidence in potential foreign investors we hope to tap via SEAFs networks. Further this will enable GCP and its shareholders to enhance the opportunity set available, as the increased fund size will enable the company to get exposed to larger companies and deals which were previously not available to GCP. Simultaneously increased diversification afforded via being part of a large and relatively more diverse asset pool will also help reduce risks.

The proposed venture will be however subject to GCP obtaining all necessary regulatory approvals in Sri Lanka and shareholder approvals where necessary.

Guardian Acuity Asset Management (GAAM) is the mutual fund arm of the Ceylon Guardian which opens up the fund management expertise of the group to the general public. Our Joint venture partner for this part of the business, Acuity Partners Limited (the investment banking arm of HNB bank and DFCC bank) brings the marketing and distribution expertise to Guardian Acuity Asset Management.

The financial year 2015/16 has been a challenging year for the mutual fund industry both in local and global markets, due to weakening of macroeconomic conditions and investor confidence across the world. We remain focused on growing our AUM (asset under management) by providing superior return, servicing our clients well and delivering high quality investment expertise through equity, money market fixed income (FI) and money market gilt edged (GE) products. Despite the AUM of the overall industry shrinking, GAAM grew

We remain focused on growing our AUM (asset under management) by providing superior return, servicing our clients well and delivering high quality investment expertise through equity, money market fixed Income (FI) and money market gilt edged (GE) products. Despite the AUM of the overall industry shrinking, GAAM grew by 109% to Rs 5.6 bn in the FY 2015/16.

Period	FY2015/16		Since Inception*		Since Inception *	
	Fund Return	Benchmark Return**	31st March 2016 (Cumulated)	31st March 2016 (CAGR)	Fund Return	Benchmark Return**
Equity Fund	-6.3%	-11.0%	53.1%	10.9%	11.0%	2.6%
Fixed Income Fund	7.4%	6.1%	46.3%	38.3%	9.2%	8.2%
Gilt Edged Fund	6.3%	6.1%	6.5%	6.3%	6.3%	6.1%

* Inception : Guardian Acuity Equity Fund (GAEF) – Feb 2012,
Guardian Acuity Money Market Fund (GAMMF) – Feb 2012 ,
Guardian Acuity Money Market Gilt Fund (GAMMGF) – Mar 2015

**Benchmark : Equity - CSE All Share Price Index, FI and Gilt - NDBIB-CRISIL 91 Day T-Bill Index

by 109% to Rs 5.6 bn in the FY 2015/16. The money market fund stood at Rs 4.4 bn by the end of the financial year as the largest contributor to the total AUM and the gilt edged fund and equity fund also grew to Rs 1.1 bn and Rs 362mn respectively during the year. We continue to expand our reach through the HNB branch network, increasing the size of the sales team and developing new distribution channels.

All funds delivered above benchmark returns in the FY 2015/16 by continuing their impressive "since inception returns". The Equity Fund recorded 11.0% annualised return by outperforming the benchmark return by 8.4% whilst other two money market funds, namely GAMMF and GAMMGF, recorded 9.2% and 6.3% annualised return since inception, above the benchmark set.

In this business, as we compete head to head with other large scale fund managers, we measure ourselves against our competition as well. We have consistently maintained our position within the top three funds in our respective fund categories, since launch four years ago.

The presence of our banking partners greatly enhances the branding and accessibility of our products. However, we have not seen the banking channel welcoming alternative products to its portfolio of financial services yet. We foresee that it nevertheless remains a viable fee based channel and we continue to engage with the banking network effectively. Other channels including agents and our direct marketing staff have contributed immensely to business growth. We look forward to new industry regulatory developments that will require certified finance professionals being developed for professional marketing of financial services.

GAAM as a manager of public funds always adheres to the high standards of ethics, integrity, and professional excellence. This has been further strengthened in 2016 as we voluntarily claim adherence to the Asset Manager Code of Conduct of CFA Institute, USA. Further our dedication to high and consistent client service has been proved by launching an online client portal that provides subscription, redemption, funds switching, investment balance inquiry and other client services via the internet. This enables clients to engage with GAAM efficiently and without hassle of travelling. We are committed to constantly evolving, investing in our systems and people and improving our processes for delivering unmatched service to our clientele.

We will, in this business, continue to invest in building a sales team, more market visibility and acquiring new channels (including developing the online channel) as well as enhancing service standards.

MANAGEMENT DISCUSSION & ANALYSIS

ASSET MANAGEMENT CAPABILITY

From left to right

On human resource management, a well thought out succession plan ensures that key functional areas are staffed by high quality senior and second level management. The latter are groomed to take over specific responsibilities as they gain experience. This process assures us of a continuous flow of experienced talent through the organisation, and progression opportunity for high performers for whom career paths are provided along with organisational growth.

The Ceylon Guardian Group has emerged as a leading portfolio management and capital markets group within Sri Lanka due to the diversity of its asset management capability and supporting systems and frameworks. Having primarily started off as equity managers and continuing to be one of the largest equity portfolios managers in the private sector (with listed equity of 24.95 Bn under management), its competencies are also now well entrenched in fixed income management through its exposure to money market funds in the unit trust business (fixed income assets of over Rs 5.93 Bn).

Diversifying its core asset classes and drawing strength from its diversified parent company, the Ceylon Guardian Group has now firmly established itself as a key player in the emerging private equity industry in the country and hopes to establish

its strength further by joining up with the capabilities of its joint venture partner Small Enterprise Assistance Funds. This would be supplemented by value addition from management capabilities across our Group companies, as well as practices ensuring good governance and financial discipline.

The core asset management capabilities built up are used to service a diverse clientele ranging from institutional portfolios where customised mandates are undertaken; to individual retail investors who can choose from across our simple to understand unit trust products offered through our JV company. Thus Guardian lives upto its promise of offering "valued investment solutions" to everyone. As with most other industries scale helps to command many competitive advantages. As large scale equity investors, we feature in most of the top 20 shareholder lists of our investee companies and hence have access to management of those companies when conducting our stock evaluations, thus providing greater insight. The relationships built thereby enhance our access to fixed income transactions with those key corporates. Once again within the capital markets, our scale enables us to command better quality deals on advantageous terms.

Further, our team of seven research staff comprise the backbone of our decision making process and they spend time and effort in understanding economic impacts and key industry sensitivities of business decisions by undertaking field visits to the trade and consumers. This requires considerable investment in time and effort which we are able to spare due to our team size.

Getting onto investment infrastructure, our well equipped support services team of seven provide strong control and stewardship for our clients and public funds. Our reporting effort is well supported by Credence Ideal investment management system procured from a leading vendor supplying the asset management industry in India servicing clients such as State Bank of India, ICICI Bank and SBI Associates (largest banking group in India) with whom we have had a business relationship of over 8 years. We are presently deploying an upgraded version of this to enhance the offering to our clients on reporting including web enabled access and GIPS compliance (global investment performance standards).

The core asset management capabilities built up are used to service a diverse clientele ranging from institutional portfolios where customised mandates are undertaken; to individual retail investors who can choose from across our simple to understand unit trust products offered through our JV company. Thus Guardian lives upto its promise of offering "valued investment solutions" to everyone.

Similarly we upgraded our Operational Procedures and Code of Ethics and Standards of Professional Conduct recently to comply with the CFA Asset Managers Code of Conduct.

The team's actions on risk management are well supported by an effective system of risk assessment and reporting which looks at everything from portfolio concentration risk, to regulatory and economic and market based volatilities and liquidity levels to support fund in / outflows. Our compliance process is supported by our parent company's Group internal audit, as well as outsourced independent internal auditors in the unit trust business. A dedicated compliance officer also functions under this set up to look after adherence to all internal and external guidelines.

On human resource management, a well thought out succession plan ensures that key functional areas are staffed by high quality senior and second level management. The latter are groomed to take over specific responsibilities as they gain experience. This process assures us of a continuous flow of experienced talent through the organisation, and progression opportunity for high performers for whom career paths are provided along with organisational growth.

MANAGEMENT DISCUSSION & ANALYSIS

ECONOMY AND MARKET

From left to right

RESEARCH TEAM: Vijith Karunaratne, Kasun Gunawardhana, Akila Hewagamage, Thasmi Gunawardane, Harindi Hettigamage, Tharinda Jayawardana

The calendar year 2015 marked a year of change for Sri Lanka's political landscape. The presidential and parliamentary elections saw a transition in leadership of the country with new leaders articulating good governance and democratic platforms. Thus far, the new government has steered foreign policy in a more diverse direction and is in the process of implementing policies that will improve transparency. Much is expected of the new government with regard to introduction of reforms and providing economic direction. There lies a high expectation on economic and political reforms and the speed at which it is implemented.

Economic Review

An arrow, as the saying goes, can only be shot by pulling it backward. Similarly, the year under review saw the economy and markets take a step back in the hope of restructuring itself to create a platform for future growth.

The Sri Lankan economy shows great potential with many avenues for expansion. The geographic location of the island brings with it advantages to develop tourism, maritime, logistics and integrate into regional supply chains. Furthermore, a vibrant service sector and domestic consumption (with increasing GDP per capita) have also proved to be strong contributors to Sri Lanka's economic growth story. The 30 year conflict which ended in 2009 left a vacuum of infrastructure development which the country now has to fast track. The implementation of such projects if financed appropriately will sustain economic growth on a higher trajectory. There lies a need for cohesive policy framework which can help Sri Lanka accelerate development in key sectors resulting in much needed diversity in exports, higher skilled labour force, foreign direct investment and a strategy to better integrate into regional economies.

The calendar year 2015 marked a year of change for Sri Lanka's political landscape. The presidential and parliamentary elections saw a transition in leadership of the country with new leaders articulating good governance and democratic

platforms. Thus far, the new government has steered foreign policy in a more diverse direction and is in the process of implementing policies that will improve transparency. Much is expected of the new government with regard to introduction of reforms and providing economic direction. There lies a high expectation on economic and political reforms and the speed at which it is implemented.

Sri Lanka's GDP growth was registered at 4.8% for 2015 which was marginally down from the previous year. Favourable weather patterns saw agriculture perform better with a growth of 5.5%. The industrial sector slowed down to 3.0% as a result of the construction sector coming to a standstill as infrastructure projects were put on hold. The service sector grew by an improved 5.3% with broad-based growth across subsectors.

The year also marked the start of the typical monetary tightening cycle in Sri Lanka. The trade deficit tends to widen with growth in import led consumption, which is in turn spurred by accommodative monetary policy for prolonged periods. With inadequate capital inflows the foreign reserves fluctuate unnervingly and hasten currency depreciation. Furthermore, an increasing exposure to foreign debt (currently 54% of total debt) leaves the economy susceptible to global shocks. The flight from emerging markets in the last quarter of the financial year led to capital outflows from Sri Lanka intensifying and heightened the drain on Sri Lanka's reserves.

Source : Central Bank of Sri Lanka

MANAGEMENT DISCUSSION & ANALYSIS

The Central Bank of Sri Lanka in order to address excessive growth in credit, reign in the trade deficit and reduce pressure on the Rupee, tightened monetary policy by increasing policy rates by 50 basis points in February 2016 and increased the SRR by 150 basis points in December 2015. Interest rates meanwhile have increased by 2-3% across secondary market bond yields and primary auctions resulting in a 'risk-off' attitude by investors.

The country's high debt to GDP levels of around 76% and low levels of revenue collection of approximately 13% in 2015 reveal a need for urgent re-structuring on the fiscal policy front. A recent round of proposed fiscal budgets saw the country unable to address its deepening fiscal deficit. Fitch Ratings downgraded Sri Lanka one notch to B+ citing amongst other reasons frail finances, precarious external position, high rising government debt and no credible fiscal consolidation plan. The sovereign credit rating has grown in significance over the years due to higher levels of foreign participation in the Sri Lankan debt markets. The country will be burdened with higher interest costs if markets continue to factor in further credit downgrades.

We believe that the Sri Lankan economy is navigating through the financial storm and will move into calmer and more productive territory based on its present course. The intervention of IMF can restore confidence amongst domestic and international investors and ease pressure on capital flows. Furthermore, fiscal tightening measures currently proposed can indicate a more determined step in the direction of much needed fiscal consolidation.

Equity Market Review

Equity markets underwent a correction for the financial year ending March 2016 with the All Share Price Index (ASPI) recording -10.97% and the S&P SL20 falling -16.82%. The first half of the financial year was dominated by an overall sense of uncertainty prevailing in anticipation of general elections to

be held in August 2015. Investors were intently watching the transitional period after the presidential elections in January 2015 and implications on policies that were expected to follow thereafter.

The growth story of emerging economies came into question by global investors during the year which resulted in a sell off across emerging markets. Key issues that unsettled foreign investors included a slow-down in China's economy, collapse in oil prices and the increase in the US Fed's policy rate. After the initial Fed rate hike announced in December 2015 the Fed took a more dovish view due to lower expectations in global growth and more sluggish US economic numbers. Sri Lanka too witnessed significant foreign outflows throughout the period under review which amounted to Rs. 9.4 billion. Much of the selling was focused on the large cap stocks resulting in the All Share Price Index taking a severe beating. Key sectors such as banking, finance & insurance sector, diversified sector and manufacturing fell by 15.4%, 14.0% and 7.4%. In recent months global markets have settled with oil prices recovering and emerging markets seeing a significant net inflow.

Foreign outflows from the CSE have stabilised compared to the start of the calendar year but the CSE has not benefitted from renewed interest in emerging markets. This is largely because domestic macroeconomic concerns came into the spotlight. The higher interest rates, external debt repayment and depreciation of the rupee led to bearish sentiment surrounding the CSE. The high debt burden and inadequate strides towards fiscal consolidation further led rating agencies to downgrade and place the island economy on rating watch which further dampens spirits.

Market capitalisation as at 31st March 2016 stood at Rs. 2.58 trillion compared with Rs. 2.89 trillion a year ago. Daily average turnover remained at subdued levels of Rs. 986 million for the financial year with reduced participation by domestic

Source : Bloomberg (20th June 2016)

institutional and retail investors. The 1 year and 2 year forward PE for the CSE based on our universe of coverage is currently at 11x and 9x with an anticipated growth in corporate earnings of 12% and 11% respectively. Corporate earnings remain moderate but particular companies show strong potential to consistently outperform the general market. The ability to select these companies and buy at correct pricing effectively reveals the need for fundamental research. The dividend yield of the CSE increased to 2.48% as at March 2016 compared to 2.2% in the previous year. Relative to regional markets the CSE looks more attractive from a valuation perspective and we are confident the foreign interest will return once macroeconomic stability is achieved.

RISK MANAGEMENT

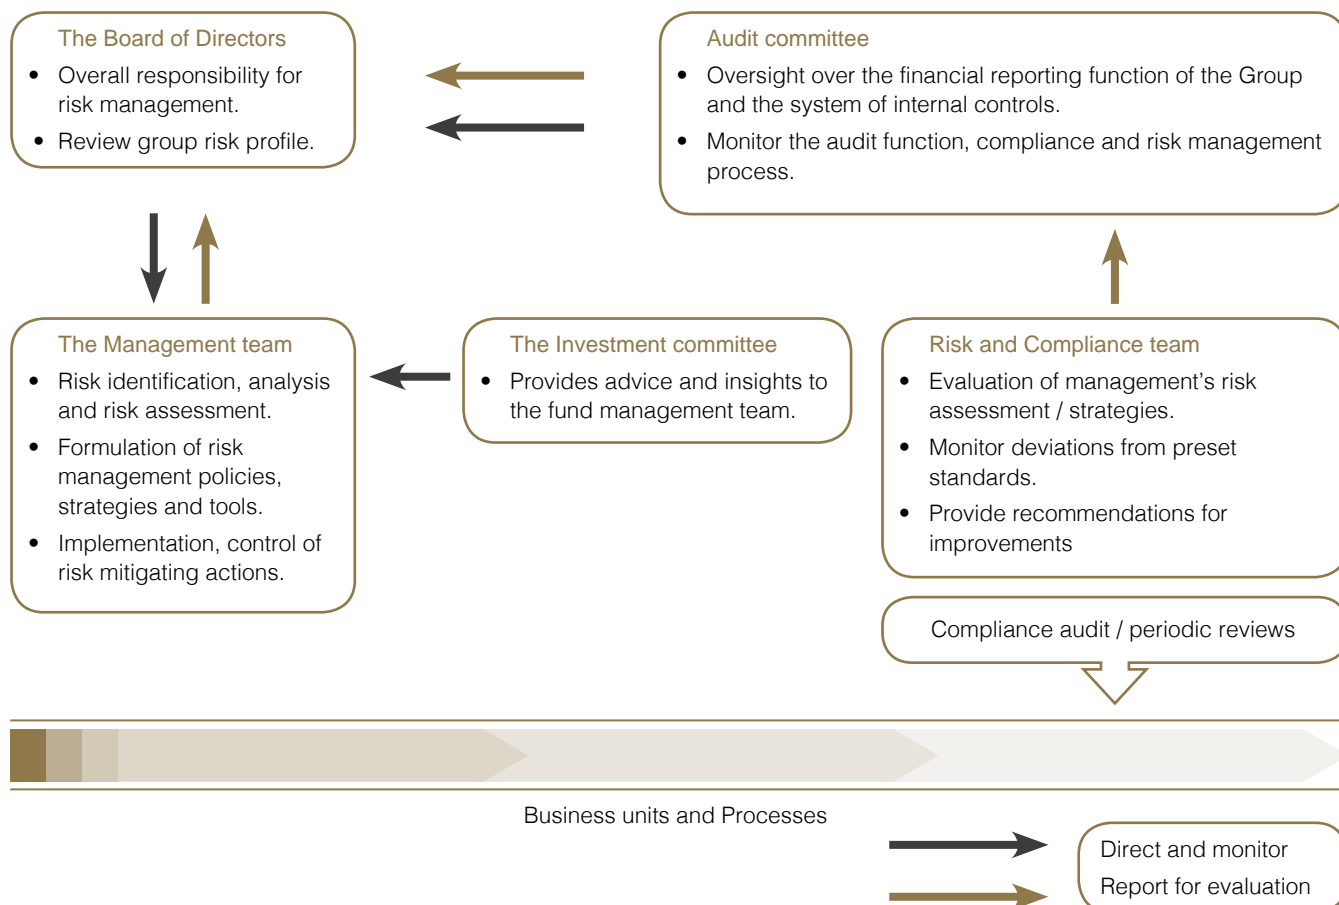

overview of Risk Management

Risk Management is the process of identification and assessment of risks arising due to factors which are internal and external to the entity, and implementation of identified, mitigating actions to address such risks. Management of risk helps to avoid or minimise unanticipated losses being incurred. It is not a one time or periodic assessment, rather it is a continuous process, which is also an integral part of normal business operations and the management of the entity.

Risk Management Structure at Ceylon Guardian

The Risk Management structure established at Ceylon Guardian Group is applicable across the parent company and all other entities of the Group. The Company's Board of Directors has overall responsibility for the establishment

and oversight of the Group's risk management framework. The Board of Directors has delegated this function to the Management of Guardian Fund Management Limited (GFM) which is a fully owned subsidiary of the parent company, the Fund Managers and Carsons Management Services (Private) Limited (CMSL), the Managers; who are responsible for developing and monitoring the Ceylon Guardian Group's risk management policies and reports regularly to the Board of Directors on its activities. The Ceylon Guardian Group's risk management policies are established to identify and analyse the risks faced by the Group, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies, and systems are reviewed regularly to reflect changes in market conditions and the Group's activities.

Risk management policies, and systems are reviewed regularly to reflect changes in market conditions and the Group's activities.

The Audit Committee of the Company has oversight over the financial reporting function of the Company, the system of internal controls as well as the audit, compliance and risk management processes. Further, an Investment Committee provides advice and insights to the fund management team to further sharpen and refine their decision making process. This organisation structure determines the objectives and policies of our risk management framework and promotes a culture of risk awareness and balanced risk-taking within the Company.

Risk categories

Ceylon Guardian Group operates the portfolio and asset management sector of the Carson's Group. The group business operations include management of the Ceylon Guardian group portfolio which consist of listed equity / private equity and fixed income securities, management of unit trusts with equity / debt instruments and providing of portfolio management services to external customers. The Group faces various types of risk, some of which are applicable across all the assets classes under management while some are applicable to specific business operations or an asset category.

The key identified risks are monitored and managed as a continuous process.

Macro environmental risks: Overall macro-economic conditions and political factors affect the risk profile of the Company. The variations of macro-economic variables like Gross Domestic Product (GDP), interest rate, inflation, exchange rates and changes in the political environment and government policies affect the achievement of Company business and financial objectives.

Risk Category	Impact and mitigating strategies
<p>Country risks</p> <p>The risk associated with operations which are subject to various exchange control regulations, currency fluctuations, transaction costs & taxes and other actions that may be imposed by the government or policy making bodies of the particular foreign country or Sri Lanka.</p>	<ul style="list-style-type: none"> This is a new risk area for which we are looking to build a framework as the Group intends to exploit new markets in the future, when regulations permit. The Sri Lanka Fund, a subsidiary company which is domiciled in Cayman Island and is subject laws and regulations imposed by regulatory authorities there. Changes in Cayman Island regulatory environment, in the context of The Sri Lanka Fund is continuously monitored with the assistance of the Fund's, Lawyers who have the necessary expertise.
<p>Currency risks</p> <p>The risk associated with any fluctuations of foreign exchanges rates against Sri Lanka Rupee.</p>	<ul style="list-style-type: none"> The Sri Lanka Fund, of which the reporting currency is US dollars, is exposed to risk of currency impact on translation.
<p>Market risk - domestic</p> <p>The exposure to adverse movements in both equity / fixed income securities market, which can result in value loss as well as variations in the anticipated returns from those securities. This is mainly caused by systematic risk factors such as interest rates, currency parity, inflation and availability of credit which affect both capital and money markets, and the value of securities.</p>	<ul style="list-style-type: none"> Market risks are inherent in every security and are thus collectively considered at the portfolio level to take into account the asset allocation decisions of the portfolio. The risks affecting a particular class of security are mitigated by switching to asset classes that are assessed to be less risky in a particular scenario. The sectorial and security exposure is continuously monitored. A sound research base to determine changing economic fundamentals of the country, determine the impact on equity vs fixed income investments and the prompt shifting of funds between asset classes. The sensitivity of stock valuations to changes in economic indicators are continuously monitored. The returns of money market funds the Company has invested in is sensitive to changes in the financial sector. Hence the behaviour of interest rate determinants are monitored, and anticipated interest rate trends are considered in pursuing investment strategy.

Risk Category	Impact and mitigating strategies
<p>Market risk - international and external</p> <p>The risk that the domestic market will have an indirect impact from other markets, international trade and capital inflows / outflows, changing economic indicators and policies in the global context. The entry and exit of foreign investors from the local market is also determined by the macro economic trends prevailing in foreign markets and relative valuations of our market vis-a-vis developed and other comparative Asian markets.</p>	<ul style="list-style-type: none"> Commodity risk is somewhat high for the domestic economy, since Sri Lanka is an import dependent for vital commodities. We continuously monitor global developments in capital markets which is vital to assess and mitigate this risk. Building of expertise in foreign markets will take place going forward, as we would look to invest overseas gradually. In mitigating the risk we would tie up or collaborate with foreign entities that have expertise in such markets in order to gain knowledge.
<p>Portfolio Risks: The risk arising due to investment strategy, factors inherent to investment instruments and composition of the portfolio which affect the return of the portfolio.</p>	
<p>General securities risk</p> <p>Inherent investment risks associated with the particular investment instrument or issuing entity of the security. The price or value of any security may fluctuate, resulting in possible loss not only of returns and profits, but even all or part of the principal sums.</p>	<ul style="list-style-type: none"> General securities risk is applicable regardless of whether the instrument is equity listed / unlisted or fixed income, but the magnitude of risk will vary with the type of the instrument. Portfolio management and investment selection process which is a bottom up approach, is designed to maximise the risk/return trade off. Risk mitigating methodology is based on the internal research process, and prospective investments are selected from fundamental analysis and contact with corporate management of the issuing company through company visits. A continuous process of monitoring the performance of investee companies is adopted, after the investment is made. In the case of private equity since there are no regulatory disclosure requirements we require the investee company to disclose financial information on regular basis.
<p>Concentration risk</p> <p>This is the risk that, the portfolio is over exposed to a particular sector / sectors or a security / securities resulting the risk and return of the portfolio being over dependent on the performances / risk profiles of those sectors or securities.</p>	<ul style="list-style-type: none"> Monitoring sector exposure and single company / group exposure of the portfolio as a diversification and a mitigation strategy. Loss limits are set to monitor stocks performing below their cost of acquisition to determine whether temporary capital erosion is a concern. Monitoring by the compliance team takes place as a routine process.

Risk Category	Impact and mitigating strategies
<p>Liquidity risk</p> <p>Liquidity is the tradability of the securities in the market or the ability to realise cash with minimum loss of capital. The risk is that if the investment instruments of the portfolio are less liquid, execution of fund management decisions are affected.</p>	<ul style="list-style-type: none"> • Lower liquidity of securities could affect the fund manager's ability to transact, which in turn, could affect the fund's overall performance. This might be due to poor market sentiment of a security, or low levels of publicly traded quantities. On acquisition of shares, we consider on the factors like size of free float, tradability of the stock, market turnover, major shareholders etc. • In case of private equity investment which are unlisted, there is no official market price available for valuing the investment. However, we monitor secondary market trades to track prices. This is not an accurate guide as the volume of trades is a key factor in determining fair price. As we take fairly significant positions in private equity investee companies divestment of our stakes is more difficult, bringing a further element of illiquidity to our investments • We agree with the investee company on possible exit mechanisms.
<p>Regulatory and compliance risk: Company is operating in an industry under the supervision and monitoring of several regulatory authorities, especially Securities and Exchange Commission of Sri Lanka (SEC) and provisions of other regulatory requirements like the Companies Act, Listing Rules of The Colombo Stock Exchange, Central Bank of Sri Lanka are applicable in this industry.</p>	
<p>The conduct of operations of the Group should be in compliance with the legal and regulatory provisions and financial requirements applicable under these regulatory benchmarks. Non-compliance or violation of these requirement will cause risk of cancellation / suspension of some licences issued by SEC, facing being taken by respective regulatory authorities etc.</p>	<ul style="list-style-type: none"> • The management together with the Carsons group legal division pro-actively identifies and set up appropriate systems and processes for legal and regulatory compliance in respect of the Company's operations. • Periodic training programs for staff to improve the awareness of changes in applicable laws and regulations. • Reviews on a quarterly basis reviews conducted by the compliance team and the management certification of compliance with relevant laws and regulations on a periodic basis. • Internal audit monitors compliance with all regulatory provision.

Risk Category	Impact and mitigating strategies
<p>Operational Risks : This is the risk of losses being incurred resulting from disruptions, disturbance of business operations caused by events due to inadequate or failed internal processes, people and systems within the organisation. The management of operational risk is a continuous process which includes identification, assessment of risk and implementation of measures to address such risk, which specifically covers following key areas which are significant in the context of Investment and asset management operations.</p>	
<p>Systems and process risks</p> <p>The Company's business operations are structured in a way that, those are performed as interconnected / interdependent processes. The divisions of the company, either separately or collectively are responsible for the functions of these process which utilise human / physical resources and information systems</p>	<ul style="list-style-type: none"> • The management of systems and process risk consist of identifying risks and formulating plans promoting best practices, implementing internal controls / systems and monitoring compliance with these internal guidelines. • The processes are continuously monitored to identify the areas of weakness and to implement improvements. • Correct application of recommended practices where back up procedures are followed on a routine basis to ensure data and Information security. Our accounting systems and portfolio management systems are regularly backed up to prevent loss of data. • Business continuity plan which describes how to resume business after a disruption occurs in business process, location and the system. A Disaster Recovery Plan is available at the Carson's Group level which deals with recovering Information Technology infrastructure, facilitating of critical operations to be active in an alternate location etc. after a disastrous interruption. • Systems support and the maintenance agreements with for the portfolio management software is made available through an annual maintenance agreement with the software vendor which ensures on line support for system issues and queries. • The internal audit function of the Carsons Group ensures the safeguarding of Company assets, recommends process improvements in areas where process control failures are noted and compliance with regulatory requirements etc.

RISK MANAGEMENT

Risk Category	Impact and mitigating strategies
<p>Reputation risk</p> <p>This is a critical risk in that as a financial entity any loss / theft or misappropriation of cash / financial assets can cause permanent and long term loss of business</p>	<ul style="list-style-type: none"> • A sound system of internal controls and quarterly internal audits are carried out by the internal audit department. • A Code of Ethics signed by all staff and constant education and awareness of the code. • Regular staff communication.
<p>Staff risks</p> <p>A fund management operational unit requires qualified professionals with experience in the fund management industry. Knowledge of the operating mechanism of the market as well as its norms and ethics is of importance.</p>	<ul style="list-style-type: none"> • Having diversity in the team, developing a strong second level, providing training and development opportunities, are standard practices of the industry with which we benchmark ourselves. A performance related incentive scheme for the staff is in place and is being reviewed regularly. The networking ability of key staff to source clients and deals is important in running a successful fund management operation by being shown important deals by market intermediaries. • The staff of GFM are all professionally qualified with a track record of experience in the industry. A strong research team has been developed to complement the fund management operation and raise the standard of the investment decision making process. Staff training and development is identified as an important area of concern, while retention is managed through a comprehensive reward structure and incentive scheme, opportunities for career progression and a culture of being HR oriented. Collectively these steps help us to work towards having an effective succession plan in place.

THE TEAM

SUSTAINABILITY REPORT

We at Ceylon Guardian go beyond creating wealth for our business stakeholders. As a socially responsible corporate, we understand the importance of wealth creation from the grassroots level, and we believe that one of the best ways to achieve this is by fostering the sustainable growth of small businesses in the country. We believe that a vibrant and dynamic Small and Medium Enterprises (SME) sector is crucial for the long-term growth of a developing economy, by creating sustainable livelihoods, reducing rural unemployment, encouraging innovation and strengthening social cohesion within communities.

YounG EnTREPREnEuRS DEVELoPMEnT PRoGRAMME

The Young Entrepreneurs Development Programme (YEDP) was launched in order to enhance the technical and business management skills of young entrepreneurs towards their success, which would promote the socioeconomic development of Sri Lanka in a sustainable manner. Currently in its third year, YEDP is the flagship programme of the Youth to Nation Foundation (YNF), founded in 2013 with the vision to build a nation of self-reliant, motivated youth who will add value to, rather than be dependent on society.

Beneficiaries to the programme are selected by a selection committee comprising both internal and external members. Selection is based on the extent to which entrepreneurs add value to the economy – in terms of local raw material usage, direct and indirect employment generation, and earning or saving of foreign exchange.

Selected entrepreneurs are provided with financial assistance to expand their businesses based on a projected 3-year business plan. In addition they are provided management intervention by the dedicated YNF team, so that they would be successful in achieving that business plan. Such intervention is carried out for each individual entrepreneur, by conducting regular field visits to them and interacting with their major stakeholders, such as key buyers, suppliers and indirect workers.

ouR GRoWInG FunDInG PoRTFoLlo

Year	No. of Beneficiaries		Total Value of Funds Disbursed (Rs.)	
	New	Cumulative	New Loans	Cumulative Value
2013	3	3	1,900,000.00	1,900,000.00
2014	5	8	4,055,790.00	5,955,790.00
2016	7	15	7,118,000.00	13,073,790.00

Currently, our focal districts are Hambantota, Matara, Ratnapura and Colombo. In the year under review, seven new entrepreneurs were selected, increasing the total number of beneficiaries in the programme to fifteen.

YEDP BENEFICIARIES

PROJECt IMPACT To-DATE

- Secured employment and improved work conditions for approximately 220 direct employees, majority of whom are rural women
- Improved livelihoods for approximately 100 indirect beneficiaries including outsourced workers, raw material suppliers, distributors and sales agents
- Approximately 50 jobs created following YNF intervention
- 10 competency development workshops for 310 entrepreneurs in Matara, Hambantota, Ratnapura and Monaragala districts

KEY PERFoRMAnCE InDICAToRS

The progress of each entrepreneur is continuously assessed based on pre-determined Key Performance Indicators (KPIs), thereby enabling the YNF team to identify the priority areas on which intervention is necessary for each. These KPIs reflect a holistic approach to growth, taking into consideration the 3 Ps of People, Planet and Profits, and are categorised into Primary, Secondary and Growth Factors.

Key Performance Indicators for Beneficiary Entrepreneurs

Primary Factors	Secondary Factors	Growth Factors
Sales volumes/ Revenue	Customer satisfaction	Market development
Production volumes/ Production efficiency/ Capacity utilisation	Product quality/ Design	New product development
Cash/ Working capital management	Accounting/ Record-keeping	Technical improvement
Labour management	Work conditions/ Health & safety	Environmental impact

SUSTAINABILITY REPORT

CoMPETEnCY DEVELoPMEnT WoRKSHoPS

In addition to the entrepreneurs selected to YEDP, YNF also conducts competency development workshops for SME entrepreneurs in selected clusters, with a view to provide a greater social benefit to a larger group of beneficiaries. These workshops are conducted with the collaboration of the respective regional Chambers of Commerce. Topics are determined based on the Training Needs Assessment (TNA) of the target participants, and resource persons include both in-house professionals and external experts in the relevant fields.

In the year under review, two such workshops were conducted in Matara and Wellawaya, participated by a total of approximately 80 entrepreneurs.

ouR IMPACT – A FEW SuCCeSS SToRIES

A.J.K.A. Damayanthi

Damayanthi is a manufacturer of soft toys from Weligama, in the Matara District. She was granted a loan of Rs. 1,000,000/- in 2014 by YNF, in order to construct a separate production/ storage facility, whereas previously part of her house was used

for this purpose. With YNF intervention, Damayanthi has been able to achieve significant business improvement – growth in volumes and revenue, improved worker productivity, improved safety standards at work, and better bookkeeping.

With the increase in scale of operations, Damayanthi has increased her number of workers, and currently there are about twenty women in the locality to whom she provides employment. A majority of these women work from their own homes, and therefore have the opportunity to earn a living whilst also attending to their household duties.

We take pride in Damayanthi's achievement of winning the award for the "Best Entrepreneur in Matara District", at the Divi Neguma Trade Fair held in Matara in December 2015.

Malithi Priyangika

Malithi is a manufacturer of ladies fashion garments from Ranna, in the Hambantota District. YNF granted her a loan of

Malithi – winner of the Silver Award for "Best Woman Entrepreneur" at the "Hambantota District Best Entrepreneur Awards Ceremony 2015", held in September 2015

Rs. 1,000,000/- in 2014, for investment in machinery. Malithi has also experienced significant growth in volumes and revenue. In addition she has adopted better business practices, such as computerised record-keeping, maintenance of monthly accounts, better cash flow management and improved worker welfare. She has increased employment, currently providing a means of livelihood to over 25 direct and indirect workers in the locality, majority of whom are women.

With the expansion of business, Malithi has been able to invest in more technologically advanced machinery, which has led to reduced wastage and improvements in production efficiency and quality of finished goods.

Opening of the new production facility – Anjana looks on as an employee commences work at the auspicious time

Anjana Thusitha Kumara

Anjana is a manufacturer of garments from Kamburugamuwa, Matara. His aim is to produce trendy yet affordable casual wear for the rapidly growing teenage market segment. Anjana was granted a loan of Rs. 1,000,000/- by YNF in 2015, in order to complete construction of a new production facility. The new facility has greater workspace, enabling him to increase his workforce and thereby the scale of production. It has also improved the working conditions and safety at work of existing employees, and enabled him to streamline his production process and gain efficiency improvements.

overseas Business opportunities

Three of our beneficiaries participated in the "Canton Fair" held in Guangzhou, China in October 2015, in their attempt to seek international business opportunities. These are Keerthi Siriwardhana – a construction chemicals manufacturer from Walasmulla, Dhammika Sujith – a manufacturer of coir-based products from Weeraketiya, and Devananda Wijenayake – a commercial-scale stringhopper manufacturer from Ambalanthota. We take pride in their efforts to make a difference and grow to new heights in their respective industries.

ANNUAL REPORT OF THE BOARD OF DIRECTORS ON THE AFFAIRS OF THE COMPANY

The Board of Directors of Ceylon Guardian Investment Trust PLC have pleasure in presenting to the shareholders this Report together with the Audited Financial Statements for the year ended 31st March 2016.

The details set out herein provide the pertinent information required by the Companies Act, No. 07 of 2007, Listing Rules of the Colombo Stock Exchange and are guided by recommended best Accounting Practices.

The Annual Report was approved by the Board of Directors on 07th June 2016.

1. GENERAL

Ceylon Guardian Investment Trust PLC (the "Company"), is a public limited liability Company incorporated in Sri Lanka in 1951.

2. THE PRINCIPAL ACTIVITIES OF THE COMPANY AND ITS SUBSIDIARIES

The principal activities of the Company and its subsidiaries are to act as specialised investment vehicles within the investment business to undertake listed, private equity and fixed income investments and engage in fund management activities. This will give the investors an opportunity to select an investment company to suit their risk appetite. Ceylon Guardian Investment Trust PLC would, as the parent entity, take-up diverse risks of all sub-segments of the investment business

There were no significant changes in the nature of the principal activities of the Company and the Group during the financial year under review.

A list of subsidiaries and jointly controlled entities are provided in notes 20 and 21 to these financial statements.

3. REVIEW OF OPERATIONS AND FUTURE DEVELOPMENTS

The Chairman's Statement and Management Discussion & Analysis on pages 6 to 27 provide an overall assessment of the business performance of the Company and the Group and its future developments. These reports together with the audited consolidated financial statements reflect the state of affairs of the Company and the Group.

4. FINANCIAL STATEMENTS

The consolidated financial statements which comprise the Statement of Profit or Loss and other Comprehensive Income, Statement of Financial Position, Statement of Cash Flows, Statement of Changes in Equity and Notes to the financial statements of the Company and the Group for the year ended 31st March 2016 are set out on pages 64 to 121. These financial statements do comply with the requirements of the Companies Act, No. 07 of 2007.

4.1 Revenue

The Company and the Group generated revenue of Rs. 601.5 mn and Rs. 1,176.3 mn (2015 – Rs. 720.7 mn and Rs. 2,066.6 mn) for which a detailed analysis is given in note 11 to the Financial Statements.

4.2 Financial results and appropriation

An abridgement of the financial performance of the Company and the Group is presented in the table below:

In Rupees Thousands	Group		Company	
For the year ended 31st March	2016	2015	2016	2015

4.3 Significant accounting policies

The significant accounting policies adopted in the preparation of these financial statements are given on pages 69 to 81.

4.4 Investment in Financial Instruments

Investments in financial instruments of the Group and the Company represents investments in available for sale financial assets and investments in fair value through profit or loss financial assets, categorised in to,

Fair value hierarchy Level 1 - quoted securities, unit trusts

Fair value hierarchy Level 3 – unquoted and private equity securities (unlisted equity investments).

The information on the fair values of the investments classified as “available for sale financial assets” and investments classified as fair value through profit or loss financial assets are given in notes 22 and 24 respectively.

Further, the note 34.5 provides an analysis of these financial instruments which are carried at fair value, by the levels in the fair value hierarchy.

4.5 Reserves

As at 31st March 2016, the total reserves stood at Rs. 5,079.8 mn and Rs. 15,008.6 mn (2015 - Rs. 5,621.1 mn and Rs. 21,677.7 mn) for the Company and the Group respectively.

The movements of the above reserves are set out in the Statement of Changes in Equity.

4.6 Fair value through profit or loss financial assets reserve

During the year, amounts of Rs. 74.9 mn and Rs. 13.2 mn were transferred from (2015 – Rs. 60.8 mn and Rs.12.1 mn were transferred to) “Fair value through profit or loss financial assets reserve” due to realisation of gains and fair value adjustment of fair value through profit or loss financial assets for the Group and the Company respectively as shown in the Statement of Changes in Equity.

4.7 Available for sales financial assets reserve

During the year the net negative movement reflected in the ‘Available for sale financial assets reserve’ of the Company and the Group amounted to Rs. 511.7 mn and

Rs. 6,717.9 mn (2015 – net positive movement of Rs. 461.9 mn and Rs. 1,470.7 mn) respectively, arising out of transfer of realised gains and fair value adjustment on “available for sale financial assets”.

5. STATEMENT OF DIRECTORS' RESPONSIBILITIES

The responsibilities of the Directors, in relation to the Financial Statements are detailed in the following paragraphs, whilst the responsibilities of the Auditors are set out in the Independent Auditors' Report.

According to the Companies Act, No. 07 of 2007 and the Sri Lanka Accounting and Auditing Standards Act, No. 15 of 1995, the Directors are required to prepare financial statements for each financial year, giving a true and fair view of the state of affairs of the Company and the Group as at the end of the financial year and of the performance for the said period.

The financial statements comprise of *inter alia*:

- a Statement of Financial Position, which presents a true and fair view of the state of affairs of the Company and the Group as at the end of the financial year,
 - a Statement of Profit or Loss and Other Comprehensive Income of the Company, which presents a true and fair view of the Profit and Loss and Other Comprehensive Income of the Company and the Group for the financial year.
- In preparing these financial statements, the Directors are required to ensure that:
- appropriate accounting policies have been selected and applied consistently, while material departures, if any, have been disclosed and explained;
 - all applicable Accounting Standards have been complied with;
 - reasonable and prudent judgments and estimates have been made; and
 - provides the information required by and otherwise comply with the Companies Act No. 07 of 2007 and the Listing Rules of the Colombo Stock Exchange.

ANNUAL REPORT OF THE BOARD OF DIRECTORS ON THE AFFAIRS OF THE COMPANY

The Directors are responsible for ensuring that the Company and the Group maintains sufficient accounting records to disclose with reasonable accuracy, the financial position of the Company and the Group in order to ensure that its Financial Statements have been prepared and presented in accordance with Sri Lanka Accounting and Auditing Standards Act No. 15 of 1995 and meet with the requirements of the Companies Act No. 07 of 2007.

They are also responsible for taking reasonable measures to safeguard the assets of the Company and the Group and in this regard to give proper consideration to the establishment and effective operation of appropriate systems of internal control with a view to prevent, detect and rectify fraud and other irregularities.

These financial statements have been prepared on a going concern basis since the Directors are of the view that the Company has adequate resources to continue in operation in the foreseeable future from the date of approving these financial statements.

The Directors are also of the view that they have discharged their responsibilities as set out in this statement.

6. ouTSTAnDInG LITIGATION

There is no litigation currently pending against the Company.

7. InTERESTS REGISTER

The Company maintains an Interests Register conforming to the provisions of the Companies Act no. 07 of 2007.

All Directors have made declarations as provided for in Section 192 (2) of the Companies Act aforesaid.

The relevant details as required by the Companies Act No. 07 of 2007 have been entered in the Interests Register during the year under review.

The Interests Register is available for inspection as required under the Companies Act.

7.1 Remuneration of Directors

Directors' Remuneration for the financial year ended 31st March 2016 is given in note 12 to the financial statements.

7.2 Directors' Interest in Contracts and Shares

Directors' interests in contracts of the Company are disclosed in note 33 to these financial statements and have been declared at meetings of the Directors. The Directors have had no direct or indirect interest in any other contracts or proposed contracts in relation to the business of the Company, while they had the following interests in the ordinary shares of the Company as shown in the table below.

Directors	No. of shares as at	
	31st March 2016	01st April 2015
Mr. I. Paulraj (Chairman)	257	255
Mr. D.C.R. Gunawardena	257	255
Mr. V.M. Fernando	-	-
Mrs. M.A.R.C. Cooray	-	-
Mr. K. Selvanathan	-	-
Mr. C.W. Knight	-	-
Mr. T.C.M. Chia	-	-

8. DIRECTORS

The names of the Directors who served during the year are given under Corporate Information provided in the inner back cover of the Annual Report.

8.1 Directors to retire by rotation

In terms of Articles 89, 90 and 91 of the Articles of Association of the Company, Mr. D.C.R. Gunawardena and Mrs. M.A.R.C Cooray retire by rotation and being eligible offer themselves for re-election.

8.2 Appointment of Directors who are over 70 years of age

Upon the recommendation of the Nomination Committee of the Company and the Board, it is recommended that Mr. Paulraj and Mr. C.W. Knight who are over 70 years of age, be re-appointed as Directors of the Company for a further period of one year from the conclusion of the Annual General Meeting and the age limit stipulated in Section 210 of the Companies Act No.07 of 2007 shall not be applicable to them.

In addition to the above, the auditors were paid Rs. 70,000/- and Rs. 510,000/- (2015 - Rs. 110,000/- and Rs. 585,000/-) as audit related fees for the Company and the Group respectively during the year. Also the auditors were paid Rs. 2,310,000/- (2015 - nil) as professional fees for non-audit services during the year.

The retiring auditors have expressed their willingness to continue in office. A resolution to re-appoint them as auditors of the Company and authorising the Directors to fix their remuneration will be proposed at the forthcoming Annual General Meeting.

The Audit Committee reviewed the appointment of the Auditors, its effectiveness and its relationship with the Company and its subsidiaries, including the level of audit and non-audit fees paid to the Auditors.

9.1 Auditors' relationship or any interest with the Company

The Directors are satisfied that, based on written representations made by the Independent Auditors to the Board, the Auditors do not have any interest with the Company and its subsidiaries that would impair their independence.

9.2 Independent Auditors' Report

The Independent Auditors' Report on the financial statements is given on page 31 of the Annual Report.

10. SIGNIFICANT EVENTS DURING THE YEAR

10.1 Company

There were no significant events during the year.

10.2 Subsidiaries

There were no significant events during the year.

11. COMPLIANCE WITH RULES OF THE COLOMBO STOCK EXCHANGE

The Board has ensured that the Company has complied with the Rules pertaining to Corporate Governance and Related Party Transactions as per the Listing Rules of the Colombo Stock Exchange (CSE).

11.1 Regulatory Benchmarks

The Company's activities are regulated and are governed by the;

- 1) Companies Act No.07 of 2007
- 2) Listing Rules of the Colombo Stock Exchange
- 3) Rules of the Securities and Exchange Commission of Sri Lanka (SEC)
- 4) Central Bank of Sri Lanka

Ceylon Guardian Investment Trust PLC is registered as an Underwriter with the Securities and Exchange Commission of Sri Lanka (SEC), whilst Ceylon Investment PLC and Guardian Fund Management Limited, subsidiaries of the Company, are registered with the SEC as underwriter and Investment Manager, respectively.

The above registrations are renewed on an annual basis and each company has to fulfill the criteria stipulated by the SEC for such renewal. These include amongst many other provisions, the maintenance of a minimum capital, employment of qualified staff, place clear systems and procedures for handling investor/client portfolio and regular reporting and filings with the regulator.

Ceylon Guardian Investment Trust PLC owns 50% of the issued capital of Guardian Acuity Asset Management Limited (GAAM) as a Joint Venture. GAAM is registered as an Investment Manager and is a License holder for three Unit Trusts with the SEC.

ANNUAL REPORT OF THE BOARD OF DIRECTORS ON THE AFFAIRS OF THE COMPANY

The category of Investment Manager and License holders of unit trusts are also required to have in place a comprehensive KYC procedures to satisfy anti money laundering regulations when accepting third party funds to manage.

Mr. W. M. R. S. Dias *	Non-Executive/ Independent Director of CCPLC
Mr. T. de Zoysa **	Non-Executive/ Independent Director of CCPLC

**Appointed to the Remuneration Committee with effect from 18th May 2015*

***Appointed to the Remuneration Committee with effect from 28th July 2015*

Scope and objective

The primary objective of the Remuneration Committee is to lead to establish a formal and transparent procedure for the development of a remuneration policy and the establishment of a remuneration structure.

Functions and Proceedings

The Remuneration Committee recommends to the Board the remuneration to be paid to the Chief Executive Officer, Executive Directors and Non-Executive Directors. Based on the recommendation of the Remuneration Committee, the Board approves remuneration to the respective Directors.

The Chief Executive Officer, Director-in-charge and other members of senior management may be invited to attend meetings to discuss the performance of the Executive Directors and make proposals as necessary. Neither Executive nor Non-Executive Directors are involved in Remuneration Committee meetings when determinations are made in relation to the remuneration of the respective Directors. The Committee is authorised by the Board to seek appropriate professional advice internally and externally as and when it is considered necessary.

The Remuneration Committee meets at least twice a year.

During the period under review the Committee had two meetings.

Remuneration Committee Members	Meetings Attended (Out of two)
Mr. I. Paulraj (Chairman)	1/2
Mr. D.C.R. Gunawardena	2/2
Mr. R. Theagarajah	2/2
Mr. W. M. R. S. Dias *	2/2
Mr. T. de Zoysa **	2/2

**Appointed to the Remuneration Committee with effect from 18th May 2015*

***Appointed to the Remuneration Committee with effect from 28th July 2015*

Reporting and Responsibilities

The Committee Chairman reports to the Board on its proceedings on all matters within its duties and responsibilities. The Committee makes recommendations to the Board as deemed appropriate on any area within its limit where action or improvements are needed.

ANNUAL REPORT OF THE BOARD OF DIRECTORS ON THE AFFAIRS OF THE COMPANY

Aggregated remuneration paid to the Non-Executive Directors of the Company are disclosed under note 12 on page 82 of the Annual Report. Executive Directors are not compensated for their role on the Board.

11.7 nomination Committee

The Nomination Committee of the Company comprises of the following members.

Nomination Committee Members	Executive/Non-Executive/ Independent
Mr. I. Paulraj (Chairman)	Non-Executive Director
Mrs. M.A.R.C. Cooray	Non-Executive/ Independent Director
Mr. D.C.R. Gunawardena	Non-Executive Director

Scope and objective

The primary objective of the Nomination Committee is to lead the process for Board appointments of new Directors within group Companies and the nominations of members to represent the Company in group Companies/investee Companies.

Functions and Proceedings

The Nomination Committee recommends new appointments to the Board. Based on the recommendation of the Nomination Committee, the Board approves the new appointments of Executive and Non-Executive Directors to the Board.

Any Director of the Board and the Chief Executive Officer/ Director-in-Charge and other members of senior management may be invited to attend Meetings of the Nomination Committee. The Committee may also invite appointed external consultants to aid the Committee in the discharge of its duties.

The Committee is authorised by the Board to seek appropriate professional advice internally and externally as and when considered necessary.

The Nomination Committee meets at least twice a year.

During the period under review, the Committee had two meetings with all members in attendance.

11.8 Related Party Transactions Review Committee

As per the Rule 9.2.3 of the Listing Rules of the Colombo Stock Exchange, the Related Party Transactions Review Committee of Carson Cumberbatch PLC (CCPLC), the parent Company, functions as the Related Party Transactions Review Committee (RPTRC) of the Company w.e.f. 01st January 2016 and comprises of the following members.

RPTRC Members	Executive / Non-Executive/ Independent
Mr. V. P. Malalasekera (Chairman)	Non-Executive/ Independent Director of CCPLC
Mr. F. Mohideen	Non-Executive/ Independent Director of CCPLC
Mr. D. C. R. Gunawardena	Non-Executive Director of CCPLC
Mr. H. Selvanathan	Executive Director of CCPLC
Mr. M. Selvanathan	Executive Director of CCPLC
Mr. S. K. Shah	Executive Director of CCPLC

The Related Party Transactions Review Committee Report is given on page 59 of this Annual Report.

Declaration

The Directors have made self-declarations for the purpose of identifying parties related to them. The said declarations were noted at the First Related Party Transactions Review Committee Meeting.

The Company is in compliance with Rule 9 of the Listing Rules of the Colombo Stock Exchange pertaining to Related Party Transactions during the financial year.

11.8.1 Related Party Transactions Exceeding 10% of the Equity or 5% of the Total Assets of the Company

The Directors declare in terms of the requirements of the Listing Rules of the Colombo Stock Exchange that the transactions carried out by the Company with its Related Parties during the year ended 31st March 2016, did not exceed 10% of Equity or 5% of the Total Assets of the Company as at 31st March 2016.

The details of the Related Party Transactions are given in Note 33 to the Financial Statements.

1. Non-Recurrent Related Party Transactions

There were no Non-Recurrent Related Party Transactions entered into by the Company, where the aggregate value of the Non-Recurrent Related Party Transactions exceeds 10% of the Shareholders' equity or 5% of the total assets, whichever is lower, of the Company as at 31st March 2016.

2. Recurrent Related Party Transactions

There were no Recurrent Related Party Transactions where the aggregate value of the Recurrent Related Party Transactions exceeds 10% of the Gross Revenue/ Income of the Company, as per the Audited Financial Statements.

12. InTERnAL ConTRoL AnD RiSk MAnAGEMEnT

The ultimate responsibility to establish, monitor and review a company-wide internal control system rests with the Board of Directors. The intensity, depth and the tolerance limits for each components of the internal control system would be based on the weight of the elements of risk imposed on the sustenance of the business by the respective area of operation. Whilst a strong internal control system would mitigate the crystallisation of risk elements to a greater extent, employment of external support structures would also be necessary based on the risk assessments made thereon.

Effective maintenance of internal controls and risk identification and mitigation is handed down to the respective members of senior management within the guidelines of benchmark policies, procedures and authority limits clearly laid down.

Group internal Audit, whose scope of scrutiny is entirely driven by grading of the risk involved, will be monitoring and providing feedback to the Management and the Audit Committee. Regular submission of compliance and internal solvency certificates vouched by the Heads of the respective divisions as a mandatory agenda item keeps the Directors abreast of the position of the Company's resource base and governance requirements.

This allows the Board to have total control of the fulfilment of governance requirements by providing opportunity to take timely preventive action in case of potential

deterioration of status quo. A comprehensive description of the risk management strategies of the Company are given on pages 28 to 34 in the Annual Report.

13. HuMAn RESouRCES

The management of the Group's investments is undertaken by Guardian Fund Management Limited (GFM) and management support services are provided by Carsons Management Services (Private) Limited (CMSL).

GFM continued to invest in human capital development and implement effective human resource practices and policies to develop and build an efficient and effective workforce aligned around new business priorities of the Group and to ensure that its employees are developing the skills and knowledge required for the future success of the Group, centered around the core competencies required by an investment house.

The number of persons employed by GFM as at 31st March 2016 was 20 (31st March 2015 –17).

14. EQUITABLE TREATMENT To SHAREHOLDERS

The Company endeavours at all times to ensure equitable treatment to all shareholders.

15. DIVIDEnDS

15.1 Dividends paid during the financial year

- The Company paid a First Interim Dividend of Rs.2/- per share in the form of a Scrip Dividend (in the ratio of 1 share for every 93 shares held) amounting to Rs.175,672,908/-, for the Financial year ended 31st March 2015. Accordingly, 882,149 Ordinary Shares (amounting to Rs.164,193,546/-) and 61,717 Deferred Shares (amounting to Rs.11,479,362/-) were issued. The Ordinary shares were uploaded to the CDS* Accounts of the respective shareholders on 18th August 2015 and the payments in respect of fractional shares were made to the Ordinary shareholders, on 20th August 2015.

* Central Depository Systems (Private) Limited

- A Final Dividend of Rs.3/- per Ordinary Share and Deferred Share for the Financial Year ended 31st March 2015 was paid on 20th August 2015.

ANNUAL REPORT OF THE BOARD OF DIRECTORS ON THE AFFAIRS OF THE COMPANY

The Audit Committee of Carson Cumberbatch PLC (CCPLC)-the Parent Company is the Audit Committee of the Company.

The Audit Committee consists of the following Members :

Mr.Vijaya Malalasekera (Chairman)
Non-Executive, Independent (CCPLC)

Mr.Chandima Gunawardena
Non-Executive (CCPLC)

Mr.Faiz Mohideen
Non-Executive, Independent (CCPLC)

Mr.Vijaya Malalasekera is a Non-Executive, Independent Director of CCPLC and a former Director of Ceylon Tobacco Company PLC.

Mr.Chandima Gunawardena is a Non-Executive Director of CCPLC and in most of its Group Companies. He is a Fellow of the Chartered Institute of Management Accountants, U.K.

Mr.Faiz Mohideen, a Non-Executive, Independent Director of CCPLC, was a former Deputy Secretary to the Treasury and a former Director of Bank of Ceylon and Securities and Exchange Commission of Sri Lanka.

The purpose of the Audit Committee of CCPLC is as follows :

To assist the Board of Directors in fulfilling its oversight responsibilities for the financial reporting process, the system of internal control over financial reporting, the audit process and the Company's process for monitoring compliance with laws and regulations, Company policies and procedures and the code of conduct.

To ensure that the internal audit activity is well managed, so that it adds value to the organisation by being objective in providing relevant assurance, contributing to the effectiveness and efficiency of governance, risk management and control processes.

The audit aspects of Ceylon Guardian Investment Trust PLC are conducted within the Agenda of CCPLC-Audit Committee.

CCPLC-Audit Committee held 06 Meetings during the financial year to discuss matters relating to the Company and the attendance of the Members of the Audit Committee was as follows :

Meetings attended (out of six)

Mr.Vijaya Malalasekera (Chairman)	06
Mr.Chandima Gunawardena	06
Mr.Faiz Mohideen	06

The Chief Executive Officer-Investment Sector, Financial Controller-Carsons Management Services (Private) Limited-Managers, internal auditors and senior management staff members of the Investment Sector also attended the Audit Committee Meetings by invitation.

The Committee met the External Auditors, Messrs. KPMG, twice during the year to discuss the audit scope and to deliberate the draft Financial Report and Accounts. The Audit Committee also discussed the draft Financial Report and Accounts, with the External Auditors, without the management being present to foster an unbiased, independent dialogue.

The Audit Committee approved the audit plan for the financial year 2015/2016 and the Group Internal Audit (GIA) carried out 05 audits on the Investment Sector companies based on the plan.

The findings and contents of the Group Internal Audit reports have been discussed with the relevant management staff and subsequently the audit reports were circulated to the Audit Committee and to the senior management.

The objectives of the GIA work was to have an independent review of the system of internal controls as established by the management, its adequacy and integrity vis-à-vis objectives served and to determine the extent of adherence to the controls by staff responsible for the function and to take corrective/preventive action where necessary.

As approved by the Audit Committee, Messrs.KPMG, as part of their regular audit scope has commenced a comprehensive external IT security and process audit covering the entire Carsons Management Services (Private) Limited (Managers

AUDIT COMMITTEE REPORT

to the Company) - IT environment, which extends to the Investment Sector, as well.

The interim financial statements of Ceylon Guardian Investment Trust PLC have been reviewed by the Audit Committee Members at Audit Committee Meetings, prior to release of same to the Regulatory Authorities and to the shareholders.

The draft financial statements of Ceylon Guardian Investment Trust PLC for the year ended 31st March 2016 were reviewed at a Meeting of the Audit Committee, together with the External Auditors, Messrs. KPMG, prior to release of same to the Regulatory Authorities and to the shareholders. The Audit Committee was provided with confirmations and declarations as required, by the Managers, Carsons Management Services (Private) Limited that the said financial statements were prepared in accordance with the Sri Lanka Accounting Standards and the information required by the Companies Act No. 7 of 2007 therein and presented a true and fair view of the Company's state of affairs as at that date and the Company's activities during the year under review.

The Audit Committee has determined that Messrs.KPMG, Chartered Accountants, Auditors were independent on the basis that they did not carry out any management related functions of the Company.

The Audit Committee has concurred to recommend to the Board of Directors the re-appointment of Messrs. KPMG, Chartered Accountants, as Auditors for the financial year ending 31st March 2017, subject to the approval of the shareholders of Ceylon Guardian Investment Trust PLC at the Annual General Meeting.

REPORT OF THE RELATED PARTY TRANSACTIONS REVIEW COMMITTEE

Key Highlights	4
Chairman's Message	6
Management Discussion & Analysis	9
Risk Management	28
Profiles of the Directors	35
Management Team	38
Sustainability Report	42
Annual Report of the Board of Directors on the Affairs of the Company	46
Audit Committee Report	57
Report of the Related Party Transactions Review Committee	59

The Related Party Transactions Review Committee (RPTRC) of Carson Cumberbatch PLC (CCPLC) was constituted on 1st January 2016.

As provided by the Colombo Stock Exchange Listing Rules, the RPTRC of CCPLC - the Parent Company functions as the RPTRC of the Company.

Composition of the Committee

The Members of the RPTRC are as follows :

1. **Mr.V. P. Malalasekera**
(Chairman) - Non-Executive/Independent Director of CCPLC
2. **Mr. F. Mohideen**
Non-Executive/Independent Director of CCPLC
3. **Mr. D. C. R. Gunawardena**
Non-Executive Director of CCPLC
4. **Mr. H. Selvanathan**
Executive Director of CCPLC
5. **Mr. M. Selvanathan**
Executive Director of CCPLC
6. **Mr. S. K. Shah**
Executive Director of CCPLC

Purpose of the Committee

The objective of the RPTRC is to review all Related Party Transactions (RPTs) of the Listed Companies of the Carsons Group, other than those exempted by the 'Related Party Transactions Compliance Code', prior to the transaction being entered into or, if the transaction is expressed to be conditional on such review, prior to the completion of the transaction.

Policies and procedures

- The RPTRC reviews all the Related Party Transactions of the Listed Companies of the Carsons Group and where the Committee decides that the approval of the Board of Directors of the respective Companies is necessary to approve a Related Party Transaction, such Board approval is obtained prior to entering into the relevant Related Party Transaction.
- When reviewing a transaction, the RPTRC would decide whether the proposed transaction is carried out on an arm's length basis irrespective of whether recurrent or non-recurrent in nature.

- Reviewing and approval would be either by meeting of members (subject to quorum being present) or by circulation.
- In determining whether to obtain the approval of the Board of Directors for a Related Party Transaction, the RPTRC will take into account, among other factors it deems appropriate, whether the proposed RPTs pose a conflict of interest to the Directors.

The self-declarations from the Directors and Key Management Personnel are obtained for the purpose of identifying parties related to them. Further, the guidelines which senior management must follow in routing Related Party Transactions to the relevant forum, including transaction threshold values and pricing where applicable, have been documented even in the case of once approved recurrent transactions which are of operational nature, which as per the RPT code need not be repeatedly approved if within the broad thresholds.

The RPTRC in discharging its function has introduced processes and periodic reporting by the relevant entities with a view to ensuring that:

- there is compliance with the Code;
- shareholder interests are protected; and
- fairness and transparency are maintained.

The Committee has a criteria for designating Carsons Group Key Management Personnel (KMP). Further, processes have been introduced to obtain annual disclosures from all KMPs so designated.

The Committee held its First Meeting on 9th March 2016 with all Members in attendance. The Related Party Transactions of the Company for the period 1st January 2016 to 31st March 2016 have been reviewed by the Members of the RPTRC and the comments and observations of the Committee have been communicated to the Board of Directors of the Company.

To THE SHAREHOLDERS OF CEYLON GUARDIAN INVESTMENT TRUST PLC

Report on the Financial Statements

We have audited the accompanying financial statements of Ceylon Guardian Investment Trust PLC, ("the Company") and the consolidated financial statements of the Company and its subsidiaries ("the Group"), which comprise the statement of financial position as at March 31, 2016, and the statements of profit or loss and other comprehensive income, changes in equity and cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information set out on pages 64 to 121.

Board's Responsibility for the Financial Statements

The Board of Directors ("Board") is responsible for the preparation of these financial statements that give a true and fair view in accordance with Sri Lanka Accounting Standards, and for such internal control as Board determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Sri Lanka Auditing Standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an

opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by Board, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

opinion

In our opinion, the consolidated financial statements give a true and fair view of the financial position of the Group as at March 31, 2016, and of its financial performance and cash flows for the year then ended in accordance with Sri Lanka Accounting Standards.

Report on other Legal and Regulatory Requirements

As required by section 163 (2) of the Companies Act No. 07 of 2007, we state the following:

- The basis of opinion and scope and limitations of the audit are as stated above.
- In our opinion:
 - we have obtained all the information and explanations that were required for the audit and, as far as appears from our examination, proper accounting records have been kept by the Company,
 - the financial statements of the Company give a true and fair view of its financial position as at 31 March 2016, and of its financial performance and cash flows for the year then ended in accordance with Sri Lanka Accounting Standards.
 - the financial statements of the Company, and the Group comply with the requirements of sections 151 and 153 of the Companies Act No 07 of 2007.

*As per the provisions of Part III of the Finance Act, No. 10 of 2015, although the Companies in the Group did not become liable to pay Super Gains Tax as stand-alone entities, Rs. 71.5 mn was paid as Super Gain Tax on the basis that the Group is part of the Bukit Darah PLC group, of which the consolidated profit before tax exceeded the threshold stipulated in the aforesaid Act. According to the Act, the Super Gain Tax shall be deemed to be an expenditure in the financial statements relating to the year of assessment which commenced on 1 April 2013. The Act supercedes the requirements of the Sri Lanka Accounting Standards and hence the expense of Super Gain Tax is accounted in accordance with the requirements of the said Act as recommended by the Statement of Alternative Treatment (SoAT) on Accounting for Super Gain Tax issued by the Institute of Chartered Accountants of Sri Lanka, dated 24 November 2015.

net cash used in financing activities		(339,972)	(516,479)	(258,977)	(431,033)
net increase / (decrease) in cash and cash equivalents		(745,150)	(1,062,596)	178,036	(576,801)
Cash and cash equivalents at the beginning of the year		1,755,797	2,815,328	108,788	685,589
Net exchange differences on translation of foreign operations		34,695	3,065	-	-
Cash and cash equivalents at the end of the year	25	1,045,342	1,755,797	286,824	108,788
The notes from pages 69 to 121 form an integral part of these financial statements. Figures in brackets indicate deductions.					

NOTES TO THE FINANCIAL STATEMENTS

1. Reporting entity

(a) Domicile and Legal Form

Ceylon Guardian Investment Trust PLC is a limited liability Company which is incorporated in Sri Lanka. The shares of the Company have a primary listing on the Colombo Stock Exchange.

The registered office and principal place of business of the Company is located at No 61 Janadhipathi Mawatha, Colombo1.

The consolidated financial statements of the Company as at and for the year ended 31 March 2016 comprise the financial information of Company and its subsidiaries (together referred to as the 'Group' and individually as 'Group entities') and the Group's interest in jointly controlled entity.

The Group has two listed subsidiaries, listed on the Colombo Stock Exchange, out of the five subsidiaries set out in the note 20 to the financial statements. The jointly controlled entity is set out in note 21 to the financial statements.

(b) Principal activities and nature of operations

The principal activities of the Company and its subsidiaries are to act as specialised investment vehicles to undertake listed, private equity and fixed income investments and to engage in fund management activities.

There were no significant changes in the nature of the principal activities of the Company and the Group during the financial year under review.

The investment activities of the Group are managed by Guardian Fund Management Limited (the investment manager) and Carsons Management Services (Private) Limited function as Managers and Secretaries of the Group.

(c) Parent entity and ultimate parent entity

In the opinion of the Directors' Carson Cumberbatch PLC is the Parent Company of Ceylon Guardian Investment Trust PLC and Bukit Darah PLC is the Ultimate Parent and Controlling entity of Ceylon Guardian Investment Trust PLC

(d) number of employees

The Group had 20 (2015 – 19) employees at the end of the financial year. The Company had no employees as at the reporting date (2015 - Nil).

2. Basis of preparation

(a) Statement of compliance

The financial statements of the Company and the Group comprise the statement of financial position, statement of profit or loss and other comprehensive income, statement of changes in equity and statement cash flows together with the notes to the financial statements.

The consolidated financial statements have been prepared in accordance with Sri Lanka Accounting Standards (LKAS / SLFRS) laid down by the Institute of Chartered Accountants of Sri Lanka and the requirements of Companies Act, No. 7 of 2007.

The consolidated financial statements were authorised for issue by the Board of Directors on 07th June 2016.

(b) Basis of measurement

The consolidated financial statements have been prepared on the historical cost basis and applied consistently with no adjustments being made for inflationary factors affecting the financial statements, except for the following material items in the statement of financial position;

- Non-derivative financial instruments classified as fair value through profit or loss are measured at fair value;
- Available-for-sale financial assets are measured at fair value;
- Defined benefit obligations are measured at its present value, based on an actuarial valuation.

These financial statements have been prepared on the basis that the Company and the Group would continue as a going concern for the foreseeable future.

(c) Functional and presentation currency

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entities operate ('the functional currency'). The consolidated

NOTES TO THE FINANCIAL STATEMENTS

financial statements are presented in Sri Lankan Rupees, which is the Company's functional and presentation currency.

(d) use of estimates and judgments

The preparation of the consolidated financial statements in conformity with LKAS/SLFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment within the next financial year are included in the following notes:

Assumptions and estimation uncertainties:

- i. Assessment of Impairment - Key assumptions used in discounted cash flow projections.

The Group assesses at each reporting date whether there is objective evidence that an asset or portfolio of assets is impaired. The recoverable amount of an asset or Cash Generating unit (CGU) is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to present value using appropriate discount rates that reflects the current market assessments of the time value of money and risks specific to the asset. The carrying value of goodwill is reviewed at each reporting date and is written down to the extent that it is no longer supported by probable future benefits. Goodwill is allocated to CGU for the purpose of impairment testing.

- ii. Deferred taxation - utilisation of tax losses

Deferred tax assets are recognised for all unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Management judgment is required to determine the amount of deferred tax assets that can be recognised, based upon the level of future taxable profits together with future tax planning strategies.

iii. Defined benefit plans

The assessment of the liability of defined benefit obligations involves a significant element of assumptions; including discount rates, future salary increases, mortality rates and future pension increases and due to the long-term nature of these plans, such estimates are subject to uncertainty.

iv. Current taxation

Current tax liabilities arise to the group in various jurisdictions. These liabilities are provided for in the financial statements applying the relevant tax statutes and regulations which the management believes reflect the actual liability. There can be instances where the stand taken by the group on transactions is contested by revenue authorities. Any additional costs on account of these issues are accounted for as a tax expense at the point the liability is confirmed on any group entity.

Measurement of fair values

vi. Fair value of financial instruments

Where the fair values of financial instruments recorded on the Statement of Financial Position cannot be derived from active markets, they are determined using valuation techniques including the discounted cash flow model. The inputs to these models are derived from observable market data where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. The judgments include considerations of liquidity and model inputs regarding the future financial performance of the investee, its risk profile, and economic assumptions regarding the industry and geographical jurisdiction in which the investee operates. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

(e) Materiality and aggregation

Each material class of similar items is presented in aggregate in the Financial Statements. Items of dissimilar nature or function are presented separately unless they are immaterial.

(f) Comparative figures

Where necessary, comparative figures have been rearranged to conform with the current year's presentation.

3. Significant accounting policies

The accounting policies set out below have been applied consistently to all periods presented in the Financial Statements of the Group and the Company unless otherwise indicated.

(a) Basis of consolidation

The consolidated financial statements comprise the financial statements of the Group and its subsidiaries as at 31 March 2016. The Group controls an investee when it is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Thus, the Group controls an investee if and only if the investor has all the following:

- Power over the investee
- Exposure, or rights, to variable returns from its involvement with the investee
- The ability to use its power over the investee to affect the amount of the investor's returns

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- Contractual arrangement with the other vote holders of the investee
- Rights arising from other contracts and arrangements
- The Group's voting rights and potential voting rights

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

(i) Business combinations

Business combinations are accounted for using the acquisition method as at the acquisition date – i.e. when control is transferred to the Group.

The Group measures goodwill at the acquisition date as:

- the fair value of the consideration transferred; plus
- the recognised amount of any non-controlling interests in the acquire; plus
- if the business combination is achieved in stages, the fair value of the pre-existing equity interest in the acquire; less
- The net recognised amount (generally fair value) of the identifiable assets acquired and liabilities assumed.

When the excess is negative, a bargain purchase gain is recognised immediately in profit or loss.

The consideration transferred does not include amounts related to the settlement of pre-existing relationships. Such amounts are generally recognised in profit or loss.

Transactions costs, other than those associated with the issue of debt or equity securities, that the Group incurs in connection with a business combination are expensed as incurred. Any contingent consideration payable is measured at fair value at the acquisition date. If the contingent consideration is classified as equity, then it is not re-measured and settlement is accounted for within equity. Otherwise, subsequent changes in the fair value of the contingent consideration are recognised in profit or loss.

(ii) non-controlling interests

For each business combination, the Group elects to measure any non-controlling interests in the acquiree either:

- at fair value; or
- at their proportionate share of the acquiree's identifiable net assets, which are generally at fair value.

Changes in the Group's interest in a subsidiary that do not result in a loss of control are accounted for as transactions with owners in their capacity as owners. Adjustments to no

NOTES TO THE FINANCIAL STATEMENTS

controlling interests are based on a proportionate amount of the net assets of the subsidiary.

No adjustments are made to goodwill and no gain or loss is recognised in profit or loss.

(iii) Subsidiaries

Subsidiaries are entities controlled by the group. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases.

Adjustments required to the accounting policies of subsidiaries have been changed where ever necessary to align them with the policies adopted by the group.

In the Company's financial statements, investments in subsidiaries are carried at cost less impairment if any, in net recoverable value.

The consolidated financial statements are prepared to a common financial year end of 31st March.

(iv) Loss of control

On the loss of control, the Group derecognises the assets and liabilities of the subsidiary, any non-controlling interests and the other components of equity related to the subsidiary. Any surplus or deficit arising on the loss of control is recognised in profit or loss. If the Group retains any interest in the previous subsidiary, then such interest is measured at fair value at the date that control is lost.

Subsequently that retained interest is accounted for as an equity-accounted investee (Note (v)) or as an available-for-sale financial asset (Note (c)) depending on the level of influence retained.

(v) Investments in associates and jointly controlled entities (equity-accounted investees)

Jointly controlled entities are those entities over whose activities the Group has joint control, established by contractual agreement and requiring unanimous consent for strategic financial and operating decisions.

Investments in jointly controlled entities are accounted for under the equity method and are recognised initially at cost. The cost of the investment includes transaction costs.

The consolidated financial statements include the Group's share of the profit or loss and other comprehensive income of equity-accounted investees, after adjustments to align the accounting policies with those of the Group, from the date that significant influence or joint control commences until the date that significant influence or joint control ceases.

When the Group's share of losses exceeds its interest in an equity-accounted investee, the carrying amount of the investment, including any long-term interests that form part thereof, is reduced to zero, and the recognition of further losses is discontinued except to the extent that the Group has an obligation or has made payments on behalf of the investee.

(vi) Transactions eliminated on consolidation

Intra-group balances and transactions, and any unrealised income and expenses arising from intra-group transactions, are eliminated in preparing the consolidated financial statements. Unrealised gains arising from transactions with equity accounted investees are eliminated against the investment to the extent of the Group's interest in the investee.

Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

(vii) Financial year end

All companies in the Group have a common financial year which ends on 31st March, except the following.

Company	Nature of relationship	Financial year end
Guardian Acuity Asset Management Limited	Jointly controlled entity	31st December

(b) Foreign currency

(i) Foreign currency transactions

Transactions in foreign currencies are translated to the respective functional currencies of Group entities at exchange rates as at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies at the reporting date are retranslated to the functional currency at the exchange rate as at that date.

The foreign currency gain or loss on monetary items is the difference between amortised cost in the functional currency at the beginning of the year, adjusted for effective interest and payments during the year, and the amortised cost in foreign currency translated at the exchange rate at the end of the year.

Non-monetary assets and liabilities that are measured at fair value in foreign currency are retranslated to the functional currency at the exchange rate at the date that the fair value was determined. Non-monetary items that are measured based on historical cost in a foreign currency are translated using the exchange rate at the date of the transaction.

Foreign currency differences arising on retranslation are generally recognised in profit or loss. However, foreign currency differences arising from the retranslation of the following items are recognised in other comprehensive income:

- available-for-sale equity investments (except on impairment in which case foreign currency differences that have been recognised in other comprehensive income are reclassified to profit or loss);

(ii) Foreign operations

The assets and liabilities of foreign operations, including goodwill and fair value adjustments arising on acquisition, are translated to Sri Lanka Rupees at exchange rates at the reporting date. The income and expenses of foreign operations are translated to Sri Lanka Rupees at exchange rates at the dates of the transactions.

Foreign currency differences are recognised in other comprehensive income, and presented in the foreign currency translation reserve in equity. However, if the foreign operation not a fully owned subsidiary, then the relevant proportion of the translation difference is allocated to non-controlling interests. When a foreign operation is disposed of such that control, significant influence or joint control is lost, the cumulative amount in the currency translation reserve related to that foreign operation is reclassified to profit or loss as part of the gain or loss on disposal. When the Group disposes of only part of its interest in a subsidiary that includes a foreign operation while retaining control, the relevant proportion of

the cumulative amount is re-attributed to non-controlling interests. When the Group disposes of only part of its investment in an associate or joint venture that includes a foreign operation while retaining significant influence or joint control, the relevant proportion of the cumulative amount is reclassified to profit or loss.

When the settlement of a monetary item receivable from or payable to a foreign operation is neither planned nor likely in the foreseeable future, foreign currency gains and losses arising from such item are considered to form part of the net investment in the foreign operation and are recognised in other comprehensive income, and presented in the translation reserve in equity.

(c) Financial instruments

(i) Non-derivative financial assets

The Group initially recognises loans and receivables on the date that they are originated. All other financial assets (including assets designated as at fair value through profit or loss) are recognised initially on the trade date, which is the date that the Group becomes a party to the contractual provisions of the instrument.

The Group derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred. Any interest in such transferred financial assets that is created or retained by the Group is recognised as a separate asset or liability.

Financial assets and liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Group has a legal right to offset the amounts and intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

The Group classifies non-derivative financial assets into the following categories; financial assets at fair value through profit or loss, loans and receivables and available-for-sale financial assets.

NOTES TO THE FINANCIAL STATEMENTS

Financial assets at fair value through profit or loss

A financial asset is classified as fair value through profit or loss (FVTPL) or is designated as such on initial recognition if the Group manages such investments and makes purchase and sale decisions based on their fair value in accordance with the Group's documented investment or risk management strategy. Attributable transaction costs are recognised in profit or loss as incurred. Financial assets at fair value through profit or loss are measured at fair value and changes therein, which takes into account any dividend income, are recognised in profit or loss.

Financial assets classified as FVTPL comprise short-term sovereign debt securities actively managed by the Group's treasury department to address short-term liquidity needs.

Financial assets designated as fair values through profit or loss comprise equity securities that otherwise would have been classified as available-for-sale.

Loans and receivables

Loans and receivables are financial assets with fixed or determinable payments that are not quoted in an active market. Such assets are recognised initially at fair value plus any directly attributable transaction costs. Subsequent to initial recognition, loans and receivables are measured at amortised cost using the effective interest method, less any impairment losses.

Loans and receivables comprise cash and cash equivalents, and trade and other receivables.

Specific instruments

Cash and cash equivalents

Cash and cash equivalents comprise cash balances and call deposits with maturities of three months or less from the acquisition date that are subject to an insignificant risk of changes in their fair value, and are used by the Group in the management of its short-term commitments.

Investment in reverse repurchase agreement

The company purchases a financial asset and simultaneously enter into an agreement to re sell the same or a substantially similar asset at a fixed price on a future date. The arrangement is accounted for as loans and receivables.

Available-for-sale financial assets

Available-for-sale financial assets are non-derivative financial assets that are designated as available-for-sale or are not classified in any of the above categories of financial assets. Available-for-sale financial assets are recognised initially at fair value plus any directly attributable transaction costs.

Subsequent to initial recognition, they are measured at fair value and changes therein, other than impairment losses and foreign currency differences on available-for-sale debt instruments, are recognised in other comprehensive income and presented in the available for sale financial assets reserve in equity. When an investment is derecognised, the gain or loss accumulated in equity is reclassified to profit or loss.

Available-for-sale financial assets comprise equity securities and debt securities.

(ii) non-derivative financial liabilities

The Group initially recognises debt securities issued and subordinated liabilities on the date that they are originated. All other financial liabilities are recognised initially on the trade date, which is the date that the Group becomes a party to the contractual provisions of the instrument.

The Group derecognises a financial liability when its contractual obligations are discharged, cancelled or expire.

The Group classifies non-derivative financial liabilities into the other financial liabilities category. Such financial liabilities are recognised initially at fair value less any directly attributable transaction costs. Subsequent to initial recognition, these financial liabilities are measured at amortised cost using the effective interest method.

Other financial liabilities comprise bank overdrafts, and trade and other payables.

Bank overdrafts that are repayable on demand and form an integral part of the Group's cash management are included as a component of cash and cash equivalents for the statement of cash flows.

(iii) Stated capital

ordinary shares

Ordinary shares are classified as equity. Costs attributable to the issue of ordinary shares are recognised as a deduction against equity.

(d) Property, plant and equipment

(i) Recognition and measurement

All items of property, plant and equipment are initially recorded at cost.

Subsequent to the initial recognition property, plant and equipment are carried at cost less accumulated depreciation thereon and accumulated impairment losses.

Cost includes expenditure that is directly attributable to the acquisition of the asset. The cost of self-constructed assets includes the following:

- the cost of materials and direct labour;
- any other costs directly attributable to bringing the assets to a working condition for their intended use;
- when the Group has an obligation to remove the asset or restore the site, an estimate of the costs of dismantling and removing the items and restoring the site on which they are located; and
- capitalised borrowing costs.

Purchased software that is integral to the functionality of the related equipment is capitalised as part of that equipment.

When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

(ii) Subsequent costs

Subsequent expenditure is capitalised only when it is probable that the future economic benefits associated with the expenditure will flow to the Group. Ongoing repairs and maintenance are expensed as incurred.

(iii) Depreciation

Items of property, plant and equipment are depreciated from the date they are available for use or, in respect of self-constructed assets, from the date that the asset is completed and ready for use.

Depreciation is calculated to write off the cost of items of property, plant and equipment less their estimated residual values using the straight-line basis over their estimated useful lives. Depreciation is generally recognised in profit or loss, unless the amount is included in the carrying amount of another asset. Leased assets are depreciated over the shorter of the lease term and their useful lives unless it is reasonably certain that the Group will obtain ownership by the end of the lease term. Land is not depreciated.

The estimated useful lives for the current and comparative years of significant items of property, plant and equipment are as follows;

Class of asset	No of years
Motor vehicles	4-5
Furniture and Fittings	5-10
Computer equipment	3-5
Office equipment	5-10

Depreciation of an asset begins when it is available for use whereas depreciation of an asset ceases at the earlier of the date that the asset is classified as held for sale and the date that the asset is derecognised.

Depreciation methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

(iv) Disposal

The gains or losses arising on disposal or retirement of an item of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of the property, plant and equipment are recognised net within other income in the Statement of Income.

(e) Intangible assets and goodwill

(i) Recognition and measurement

Goodwill

Goodwill that arises on the acquisition of subsidiaries is presented with intangible assets. For the measurement of goodwill at initial recognition, see (note 3 (a)).

Subsequent measurement

Goodwill is measured at cost less accumulated impairment losses. In respect of equity accounted investees, the carrying amount of goodwill is included in the carrying amount of the investment, and any impairment loss is allocated to the carrying amount of the equity accounted investee as a whole.

Software

All computer software costs incurred, licensed for use by the Group, which are not integrally related to associated hardware, which can be clearly identified, reliably measured and it's probable that they will lead to future economic benefits, are included in the Statement of Financial Position under the category intangible assets and carried at cost less accumulated amortisation and any accumulated impairment losses. These costs are amortised to the Statement of profit or loss using the straight line method over 3 to 10 years.

(ii) Subsequent expenditure

Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure, including expenditure on internally generated goodwill and brands, is recognised in profit or loss as incurred.

(iii) Impairment

Intangible assets with indefinite useful lives or not yet available for use are tested for impairment annually or more frequently if events and circumstances indicate that the carrying value may be impaired either individually or at the cash-generating unit level. Such intangible assets are not amortised. The useful life of an intangible asset with an indefinite useful life is reviewed annually to determine whether the useful life assessment continues to be supportable.

(f) Impairment

(i) Non derivative financial assets

A financial asset not classified as at fair value through profit or loss, including an interest in an equity-accounted investee, is assessed at each reporting date to determine whether there is objective evidence that it is impaired. A financial asset is impaired if there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset, and that loss event(s) had an impact on the estimated future cash flows of that asset that can be estimated reliably.

Objective evidence that financial assets are impaired includes default or delinquency by a debtor, restructuring of an amount due to the Group on terms that the Group would not consider otherwise, indications that a debtor or issuer will enter bankruptcy, adverse changes in the payment status of borrowers or issuers, economic conditions that correlate with defaults or the disappearance of an active market for a security. In addition, for an investment in an equity security, a significant or prolonged decline in its fair value below its cost is objective evidence of impairment. The Group considers a decline of 20 percent to be significant and a period of 9 months to be prolonged.

Financial assets measured at amortised cost

The Group considers evidence of impairment for financial assets measured at amortised cost (loans and receivables and held-to-maturity financial assets) at both a specific asset and collective level. All individually significant assets are assessed for specific impairment. Those found not to be specifically impaired are then collectively assessed for any impairment that has been incurred but not yet identified. Assets that are not individually significant are collectively assessed for impairment by grouping together assets with similar risk characteristics.

In assessing collective impairment, the Group uses historical trends of the probability of default, the timing of recoveries and the amount of loss incurred, adjusted for management's judgement as to whether current economic and credit conditions are such that the actual losses are likely to be greater or lesser than suggested by historical trends.

An impairment loss in respect of a financial asset measured at amortised cost is calculated as the difference between its carrying amount and the present value of the estimated future cash flows discounted at the asset's original effective interest rate. Losses are recognised in profit or loss and reflected in an allowance account against loans and receivables or held-to-maturity investment securities. Interest on the impaired asset continues to be recognised. When an event occurring after the impairment was recognised causes the amount of impairment loss to decrease, the decrease in impairment loss is reversed through profit or loss.

Available-for-sale financial assets

Impairment losses on available-for-sale financial assets are recognised by reclassifying the losses accumulated in the available-for-sale financial assets reserve in equity to profit or loss. The cumulative loss that is reclassified from equity to profit or loss is the difference between the acquisition cost, net of any principal repayment and amortisation, and the current fair value, less any impairment loss recognised previously in profit or loss. Changes in cumulative impairment losses attributable to application of the effective interest method are reflected as a component of interest income.

If, in a subsequent period, the fair value of an impaired available-for-sale debt security increases and the increase can be related objectively to an event occurring after the impairment loss was recognised, then the impairment loss is reversed, with the amount of the reversal recognised in profit or loss. However, any subsequent recovery in the fair value of an impaired available-for-sale equity security is recognised in other comprehensive income.

An impairment loss in respect of an equity-accounted investee is measured by comparing the recoverable amount of the investment with its carrying amount.

An impairment loss is recognised in profit or loss. An impairment loss is reversed if there has been a favourable change in the estimates used to determine the recoverable amount.

(ii) Non-financial assets

The carrying amounts of the Group's non-financial assets, other than deferred tax assets, are reviewed at

each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. Goodwill and indefinite-lived intangible assets are tested annually for impairment. An impairment loss is recognised if the carrying amount of an asset or cash generating unit (CGU) exceeds its recoverable amount.

The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU. For impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or CGUs. Subject to an operating segment ceiling test, CGUs to which goodwill has been allocated are aggregated so that the level at which impairment testing is performed reflects the lowest level at which goodwill is monitored for internal reporting purposes. Goodwill acquired in a business combination is allocated to groups of CGUs that are expected to benefit from the synergies of the combination.

Impairment losses are recognised in profit or loss. Impairment losses recognised in respect of CGUs are allocated first to reduce the carrying amount of any goodwill allocated to the CGU (group of CGUs), and then to reduce the carrying amounts of the other assets in the CGU (group of CGUs) on a pro rata basis.

An impairment loss in respect of goodwill is not reversed. For other assets, an impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

(g) Employee benefits

(i) Short-term employee benefits

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognised for the amount expected to be paid under short-term cash bonus or

NOTES TO THE FINANCIAL STATEMENTS

profit-sharing plans if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the obligation can be estimated reliably.

(ii) Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into a separate entity and has no legal or constructive obligation to pay further amounts. Obligations for contributions to defined contribution plans are recognised as an employee benefit expense in profit or loss in the periods during which related services are rendered by employees.

(iii) Defined benefit plans

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan.

The discount rate is the yield at the reporting date on high quality corporate bonds, that have maturity dates approximating the terms of the Group's obligations and that are denominated in the currency in which the benefits are expected to be paid.

The liability recognised in the Financial Statements in respect of defined benefit plans is the present value of the defined benefit obligation as at the reporting date. The defined benefit obligation is calculated by a qualified actuary as at the reporting date using the Projected Unit Credit (PUC) method as recommended by LKAS 19 - 'Employee Benefits'. Such actuarial valuations will be carried out once in every year. The liability is not externally funded. All Actuarial gains or losses are recognised immediately in other comprehensive income.

Under the Payment of Gratuity Act No. 12 of 1983, the liability to an employee arises only on completion of 5 years of continued service.

(h) Provisions

A provision is recognised if, as a result of a past event, the Group has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money

and the risks specific to the liability. The unwinding of the discount is recognised as finance cost.

(i) Contingent liabilities and contingent assets

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Group or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation.

A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably. The Group does not recognise a contingent liability but discloses its existence in the financial statements.

A contingent asset is a possible asset that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Group. The group does not recognise contingent assets but discloses its existence where inflows of economic benefits are probable, but not virtually certain. In the acquisition of subsidiaries by the Group under business combinations, contingent liabilities assumed are measured initially at their fair value at the acquisition date, irrespective of the extent of any minority interest.

(i) Revenue

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Group, and the revenue and associated costs incurred or to be incurred can be reliably measured. Revenue is measured at the fair value of the consideration received or receivable, net of trade discounts and sales taxes, and after eliminating sales within the Group.

The following specific criteria are used for the purpose of recognition of revenue;

(i) Dividend Income

Dividend income is recognised in profit or loss on the date that the Group's right to receive payment is established, which in the case of quoted securities is normally the ex-dividend date.

(ii) Gain on disposal of financial assets (categorised as available for sale / fair value through profit or loss)

Profits or losses on disposal of investments are accounted for in the Statement of Income on the basis of realised net profit.

(iii) Management fee income

Management fee income is recognised on accrual basis.

(iv) Interest income

Interest income comprises the amounts earned on funds invested (including available-for-sale financial assets), and is recognised as it accrues in profit or loss, using the effective interest method.

(v) other income

Net gains and losses of a revenue nature resulting from the disposal of property, plant & equipment have been accounted for in the Statement of profit or loss.

(j) Expenditure Recognition

(i) operating Expenses

All expenses incurred in day-to-day operations of the business and in maintaining the property, plant & equipment in a state of efficiency has been charged to revenue in arriving at the profit or loss for the year. Provision has also been made for bad and doubtful debts, all known liabilities and depreciation on property, plant & equipment.

(ii) Finance income and finance costs

Finance costs comprise interest expense on borrowings and bank overdrafts.

Foreign currency gains and losses on financial assets and financial liabilities are reported on a net basis as either finance income or finance cost depending on whether foreign currency movements are in a net gain or net loss position.

(iii) Fee and commission expenses

Fee and commission expenses are recognised in profit or loss when the related services are received.

(k) Income tax expense

Income Tax expense comprises current and deferred

tax. Current tax and deferred tax is recognised in profit or loss except to the extent that it relates to a business combination, or items recognised directly in equity or in other comprehensive income.

(i) Current taxation

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years. Current tax payable also includes any tax liability arising from the declaration of dividends.

(ii) Deferred taxation

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes.

Deferred tax is not recognised for:

- temporary differences on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss;
- temporary differences related to investments in subsidiaries, associates and jointly controlled entities to the extent that the Group is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and
- taxable temporary differences arising on the initial recognition of goodwill.

The measurement of deferred tax reflects the tax consequences that would follow the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, using tax rates enacted or substantively enacted at the reporting date.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities

and assets, and they relate to taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

A deferred tax asset is recognised for unused tax losses, tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be utilised. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised, based on the level of future taxable profit forecasts and tax planning strategies.

(iii) Tax exposures

In determining the amount of current and deferred tax, the Group takes into account the impact of uncertain tax positions and whether additional taxes and interest may be due. This assessment relies on estimates and assumptions and may involve a series of judgements about future events. New information may become available that causes the Company to change its judgement regarding the adequacy of existing tax liabilities; such changes to tax liabilities will impact tax expense in the period that such a determination is made.

(iv) Economic Service Charge (ESC)

As per the provisions of Economic Service Charge Act No. 13 of 2006 and amendments thereto, is payable on "Liable Turnover" and is deductible from the income tax payments. Any unclaimed ESC can be carried forward and settled against the income tax payable in the four subsequent years.

(i) Related party transactions

Disclosure has been made in respect of the transactions in which one party has the ability to control or exercise significant influence over the financial and operating policies decisions of the other, irrespective of whether a price is charged.

4. Earnings per share

The Group presents basic earnings per share (EPS) data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the period.

5. Events after the reporting period

All material and important events which occur after the reporting date have been considered and disclosed in notes to the financial statements.

6. Dividends on ordinary shares

Dividends on ordinary shares are recognised as a liability and deducted from equity when they are approved by the Company's shareholders. Interim dividends are deducted from equity when they are declared and are no longer at the discretion of the Company.

7. Presentation

Assets and liabilities are grouped by nature and listed in an order that reflects their relative liquidity and maturity pattern.

Where appropriate, the significant accounting policies are disclosed in the succeeding Notes.

(i) Offsetting income and expenses

Income and expenses are not offset unless required or permitted by accounting standards.

(ii) Offsetting assets and liabilities

Assets and liabilities are offset and the net amount reported in the statement of financial position only where there is;

- a current enforceable legal right to offset the asset and the liability; and
- an intention to settle the liability simultaneously

8. Determination of fair values

A number of the Group's accounting policies and disclosures require the determination of fair value, for both financial and non-financial assets and liabilities. Fair values have been determined for measurement and/or disclosure purposes based on the following methods. Where applicable, further information about the assumptions made in determining fair values is disclosed in the notes specific to that asset or liability.

When measuring the fair value of an asset or a liability, the Group uses market observable data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows;

- Level 1- Inputs that are quoted market prices (unadjusted) in active markets for identifiable assets and liabilities
- Level 2- Inputs other than quoted prices included in Level 1 that are observable from the asset or liability either directly (as prices) or indirectly (derived prices)
- Level 3 – Inputs from the asset or liability that are not based on observable market data (unobservable inputs)

This category includes all financial instruments for which the valuation techniques include inputs not based on observable data and unobservable inputs have significant effect on the instrument's valuation.

If the inputs used to measure the fair value of an asset or a liability might be categorised in different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

(a) Equity and debt securities

The fair values of investments in equity and debt securities are determined with reference to their quoted closing bid price at the measurement date, or if unquoted, determined using a valuation technique. Valuation techniques employed include market multiples and discounted cash flow analysis using expected future cash flows and a other market-related discount rate.

(b) Trade and other receivables

The fair values of trade and other receivables, excluding construction work in progress, are estimated at the present value of future cash flows, discounted at the market rate of interest at the measurement date. Short-term receivables with no stated interest rate are measured at the original invoice amount if the effect of discounting is immaterial. Fair value is determined at initial recognition and, for disclosure purposes, at each annual reporting date.

(c) other non-derivative financial liabilities

Other non-derivative financial liabilities are measured at fair value, at initial recognition and for disclosure purposes, at each annual reporting date.

9. Statement of cash flows

The Statement of cash flows has been prepared using the Indirect Method of preparing cash flows in accordance with the Sri Lanka Accounting Standard (LKAS) 7, "Statement of cash flows".

Cash and cash equivalents as referred to in the statement of cash flows are comprised of those items as explained in Note 25.

For cash flow purposes, cash and cash equivalents are presented net of bank overdrafts.

Directors' responsibility

The Board of Directors is responsible for the preparation and presentation of the Financial Statements. This is more fully described under the relevant clause in the Directors' Report.

10. new Accounting Standards issued but not effective as at reporting date

A number of new standards and amendments to standards issued but not yet effective as at the reporting date have not been applied in preparing these Financial Statements.

SLFRS 9 Financial Instruments

SLFRS 9, issued in 2014, replaces the existing guidance in LKAS 39 Financial Instruments: Recognition and Measurement. SLFRS 9 includes revised guidance on the classification and measurement of financial instruments. It also carries forward the guidance on recognition and de-recognition of financial instruments from LKAS 39.

Effective date of IFRS 9 is 01st April 2018.

The Group is assessing the potential impact on its financial statements resulting from the application of SLFRS 9.

SLFRS 15 Revenue from Contracts with Customers

SLFRS 15 establishes a comprehensive framework for determining whether, how much and when revenue is recognised. It replaces existing revenue recognition guidance, including LKAS 18 Revenue, and LKAS 11 Construction Contracts.

SLFRS 15 is effective for annual reporting periods beginning on or after 01st April 2018.

The above new standard (SLFRS 15) is not expected to have a significant impact of the Group's financial statements.

The following new or amended standards are not expected to have an impact of the Group's financial statements.

- SLFRS 14 Regulatory Deferral Accounts – effective from 01st April 2016
- Agriculture: Bearer Plants (Amendments to LKAS 16 and LKAS 41) – effective from 01st April 2016

Expenses attributable to exempt profits	183,136	152,374	90,223	59,614
Disallowable expenses	30,477	23,635	14,770	10,912
	(242,231)	(136,277)	22,530	32,757
Transactions adjusted on consolidation	334,893	331,681	-	-
Share of (profit) / loss of equity accounted investee net of tax	(4,809)	461	-	-
Utilisation of tax losses (note 15.3)	(1,280)	(15,800)	-	(7,203)
Adjusted profit for taxation	86,573	180,065	22,530	25,554
Current tax liability for the year				
Current tax expense of the Company (note 15.4 (a))	6,308	7,155	6,308	7,155
Current tax expense of subsidiaries (note 15.4 (a))	17,932	43,263	-	-
	24,240	50,418	6,308	7,155

Income tax expense for the Group is based on the taxable profit of individual companies within the Group. At present, the tax laws in Sri Lanka do not provide for Group taxation.

15.3 Movement in tax losses

For the year ended 31st March	Group		Company	
	2016	2015	2016	2015
Tax losses brought forward	14,319	30,119	-	7,203
Adjustment on finalisation of income tax liability	983	-	-	-
Utilisation of tax losses during the year	(1,280)	(15,800)	-	(7,203)
Tax losses carried forward	14,022	14,319	-	-

15.4 Summary of provision applicable under relevant tax legislation

- (a) In accordance with the provisions of the Inland Revenue Act No. 10 of 2006 and amendments thereto, the Company and all other companies of the Group are liable to income tax at the standard rate of 28% (2015 - 28%) subject to exemption disclosed in note 15.4 (b).
- (b) In terms of section 13 (t) of the Inland Revenue Act, No.10 of 2006 and amendments thereto, profits derived on sale of shares on which Share Transaction Levy (STL) has been paid is exempt from income tax.
- (c) Economic Service Charge (ESC) paid by the Company and its subsidiaries are available as income tax credit over a period of four subsequent years. In instances where recoverability is not possible due to tax status, sums paid are written-off against profit/loss.

16 Earnings per share

The following reflect the earnings and share data used for the computation of earnings per ordinary / deferred share:

For the year ended 31st March	Group		Company	
	2016	2015	2016	2015
Amount used as the numerator				
Profit for the year attributable to the equity holders of the parent	512,879	1,510,801	420,902	608,815
Amount used as denominator (in thousands)				
Weighted average number of ordinary shares outstanding during the year * ('000)				
No of shares as at beginning of the year	87,836	87,836	87,836	87,836
Adjustment on issue of ordinary shares as scrip dividends (note 26.1)	944	944	944	944
Weighted average number of ordinary shares outstanding during the year	88,780	88,780	88,780	88,780
Earnings per share (Rs.)	5.78	17.02	4.74	6.86

* Each deferred share is considered to be made up of equivalent number of ordinary shares in calculating the weighted average number of shares outstanding during the year for the purpose of earnings per share calculation.

22.2 Movement in available for sale financial assets - Group

For the year ended 31st March 2016	Fair value as at 1st April 2015	Additions	Disposals	Fair value adjustment	Fair value as at 31st March 2016
Investments in equity securities	22,780,984	2,038,183	(1,529,903)	(7,688,490)	15,600,774
Investments in debentures	5	-	-	-	5
Investments in unit trusts	117,268	2,198	-	904	120,370
	22,898,257	2,040,381	(1,529,903)	(7,687,586)	15,721,149

For the year ended 31st March 2015	Fair value as at 1st April 2014	Additions	Disposals	Fair value adjustment	Fair value as at 31st March 2015
Investments in equity securities	19,837,443	2,525,672	(2,220,286)	2,638,155	22,780,984
Investments in debentures	5	-	-	-	5
Investments in unit trusts	120,500	4,875	(19,653)	11,546	117,268
	19,957,948	2,530,547	(2,239,939)	2,649,701	22,898,257

The fair value adjustment represents the net unrealised gains / (losses) on fair value adjustment of investment portfolios including any adjustment on impairment losses.

Due to significant / prolonged decline in fair value of identified equity securities in available for sale financial assets below its cost, an impairment loss amounted to Rs. 95.2 Mn has been recognised against profit or loss for the year (2015 - 81.7 Mn) as required by LKAS - 39 "Financial Instruments; recognition and measurement". LKAS - 39 also requires to recognise fair value gains and losses arising from assets classified as available for sale, other than impairment losses, in other comprehensive income. Accordingly, a loss of Rs. 7,592.3 Mn and a gain of Rs. 2,731.4 Mn have been recognised in financial years 2016 and 2015 respectively.

	88,780,355	1,128,726	87,836,489	953,167

26.1.1 With the approval of the shareholders, during the year the Company paid an interim dividend in the form of Scrip dividend of Rs. 2/- per ordinary share for the year ended 31st March 2015 amounting to Rs. 175,672,908/-. Accordingly the Company issued 882,149 ordinary shares and 61,717 deferred shares in the ratio of 1 share for every 93 existing shares at a value of Rs. 186/- per share.

26.2 Superior voting rights attached to the deferred shares

The Company has in issue 5,801,487 shares titled "Deferred shares". The deferred shares are subordinated to the ordinary shares in respect of dividend entitlement and right to a dividend does not arise unless and until the ordinary shareholders have been paid a dividend. The deferred shares confer on the holders present in person, by proxy or by attorney the right to as many votes as the number of votes conferred by all other shares for the time being issued and each holder as aforesaid present in person, proxy or attorney at any such meeting shall be entitled to such proportion of the votes conferred by the deferred shares collectively as the number of his deferred shares bears to the full number of the deferred shares. The deferred shares rank equally and pari passu for all other purposes including capitalisation of reserves or profits with the ordinary shares of the Company, except for voting rights and dividend rights.

	14,680,634	21,350,696	4,871,118	5,412,426

28.1 Translation Reserve

Foreign currency translation reserve represents exchange differences arising from the translation of the financial statements of foreign operations whose functional currencies are different from that of the Group's presentation currency.

28.2 Fair value through profit or loss financial assets reserve

Net unrealised gains arising from fair value adjustment of fair value through profit or loss financial assets will be transferred from retained earnings to "Fair value through profit or loss financial assets reserve" as at the reporting date and any realised gains and / or losses arising from fair value adjustment of such assets will be transferred from "Fair value through profit or loss financial assets reserve" to retained earnings to the extent that transfer does not exceed the balance held in the said reserve as at that date.

During the year, Rs. 74.9 Mn and Rs. 13.2 Mn were transferred from (2015 - Rs. 60.8 Mn and Rs.12.1 Mn transferred to) "Fair value through profit or loss financial assets reserve" to retained earnings as shown in the Statement of Changes in Equity of the Group and the Company respectively.

28.3 Available for sale financial assets reserve

Available for sale financial assets reserve consists of net unrealised gains arising from fair valuation of available for sale financial assets, excluding the impact arising from impairment of such assets.

28.4 General reserve

This represents the amounts set aside by the Directors to meet any contingencies.

As at 31st March	Group		Company	
	2016	2015	2016	2015
29 Employee benefits				
Balance as at the beginning of the year	10,034	7,609	-	-

Actuarial gains	(93)	(69)	-	-
Recognised for the year	(93)	(69)	-	-
Amount recognised in the Statement of Profit or Loss and Other Comprehensive Income	2,544	2,425	-	-

The gratuity liability as at 31st March 2016 amounting to Rs.9,527,542/- (2015 - Rs.10,034,302/-) for Group is made based on an actuarial valuation carried out by Mr. M. Poopalanathan (AIA) of Messrs Actuarial & Management Consultants (Pvt) Ltd. As recommended by the Sri Lanka Accounting Standards (LKAS - 19) - "Employee benefits", the "Projected Unit Credit (PUC)" method has been used in this valuation.

The principal assumptions made are given below :

Rate of discount	10.50% p.a. (2015 - 10.00% p.a.)
Rate of pay increase	12% p.a.
Retirement age	55 years
Mortality	A 67/70 mortality table, issued by the Institute of Actuaries, London was used.
Withdrawal rate	5% for age up to 50 and Zero thereafter.

The company is a going concern.

The above liability is not externally funded.

Net deferred tax liabilities / (assets)	-	-	-	-

30.4 unrecognised deferred tax asset

Due to the uncertainty regarding the availability of future taxable profits against which the deferred tax asset would be utilised, the deferred tax asset which has not been recognised as at the reporting date amounted to Rs. 6,213,220/- (2015 -Rs. 6,726,180/-).

30.5 The deferred tax effect of undistributed reserve of subsidiaries and jointly controlled entity has not been recognised since the Company can control the timing of the reversal of these temporary differences.

30.6 Impact due to corporate income tax rate change

As provided for in Sri Lanka Accounting Standard (LKAS 12) - "Income taxes", deferred tax assets and liabilities should be measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the reporting date.

Consequently following rates have been used for the computation of deferred tax asset / liability in respective years.

As at	Income tax rate
2015	- 28%
2016	- 28%

* The Company has obtained from HNB an inter-changeable short-term borrowing facility with Ceylon Investment PLC, a subsidiary company, to the value of Rs. 300 Mn (2015 - Rs. 300 Mn) on commercial terms.

NOTES TO THE FINANCIAL STATEMENTS

In Rupees Thousands

34 Financial instruments

Financial risk management - overview

The Group has exposure to the following risks arising from financial instruments:

Credit risk

Liquidity risk

Market risk

This note presents information about the Group's exposure to each of the above risks, the Group's objectives, policies and processes for measuring and managing such risks, and the Company's management of capital. Pages 28 to 34 also carry a review of risks faced by the Group and the approach of managing such risks.

Risk management framework

The Company's Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The Board of Directors has delegated this function to the Management of Guardian Fund Management Limited, the Fund Managers and Carsons Management Services (Private) Limited, the Managers; who are responsible for developing and monitoring the Group's risk management policies and reports regularly to the Board of Directors on its activities.

The Group's risk management policies are established to identify and analyse the risks faced by the Group, to set appropriate risk limits and controls, and to monitor risks and adherence to risk limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities.

The Group's investment portfolio comprises of investments in listed / unlisted equity securities and fixed income securities. The group's Investment Manager has been given discretionary authority to manage the assets, in line with the Group's investment policies and objectives.

Further, an Investment Committee provides advice and insights to the fund management team to further sharpen and refine their decision making process. This comprehensive management structure determines the objectives and policies of the Group's risk management framework and promotes a culture of risk awareness and balanced risk-taking within the Group.

34.1 Credit risk

Credit risk is the risk of financial loss to the Group, if a customer or a counter-party to a financial instrument or an obliged party to a receivable fails to meet its contractual obligations, and arises primarily on the Group's investments in fixed income earning securities, placements with banking institutions and receivables from market intermediaries and other counter parties, the Group has dealings with.

34.1.1 Credit risk exposure and managing the risk

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the end of the reporting period was as follows.

As at 31st March	Note	Carrying Amount	
		2016	2015
Available for sale financial assets - Investments in debentures	22.3.d	5	5
Available for sale financial assets - Investments in unit trusts	22.3.e	120,370	117,268
Fair value through profit or loss financial assets - Investments in unit trusts	24.3.b	941,623	1,030,749
Trade and other receivables*	23	53,774	61,835
Cash and cash equivalents - Cash at bank and cash in hand	25	20,901	32,282
Cash and cash equivalents - Placements with banking institutions	25	472,661	-
Cash and cash equivalents - Securities purchased under resale agreements	25	567,515	1,742,390
		2,176,849	2,984,529

* Advances and prepaid expense which are non financial assets are excluded

Investments in corporate debt securities

These represents investment in debentures, which yields interest income on a continuing basis. However the Group's exposure to credit risk, arising from these investments is insignificant, considering the net investment value.

Investments in unit trusts

The Group has invested in following unit trusts;

Name of the fund	Fund category	Fund's investment instruments
Guardian Acuity Money Market Fund	Money market fund	Fixed income securities with in the maturity period less than 365 days
Guardian Acuity Equity Fund	Equity fund	Listed equity securities
Guardian Acuity Money Market Gilt Fund	Money market fund	Government securities with in the maturity period less than 365 days

Guardian Acuity Asset Management Limited, a joint venture company of Ceylon Guardian Investment Trust PLC and Acuity Partners Limited is the Investment Manager of the unit trust funds that the Group has invested in. The Group continuously monitors the performance, asset allocation, credit quality and maturity profiles of these funds in order to assess and mitigate the credit risk.

Trade and other receivables

A significant portion of the trade and other receivables comprise of proceeds receivable on disposal of quoted securities, dividends receivable and portfolio management fee receivable from clients external to the Group.

Settlement procedures surrounding the equity markets are highly structured and regulated. The "T+3" settlement cycle is in place with the involvement of a custodian bank, which is being duly monitored by the regulator, hence provides an assurance on the realisation of the balances. Further, a due evaluation process, including a continuous assessment mechanism is in place in selecting the market intermediaries that the Company transacts with, which involves prior approval from the Board of Directors.

Dividend receivable is accounted for when the right to receive the dividend is established. The balances are settled within a maximum period of 4-6 weeks and no risk of default, based on past experience in the industry.

The Clients external to the group are mostly the corporates to whom the Group provides portfolio management services. The terms and conditions which determine the fees have been agreed with the parties, in the form of a bi-lateral agreement, such that the risk of a dispute is minimum. The Group has encountered no defaults to date on the fees receivable from these clients.

Age profile of trade and other receivables

As at 31st March	2016	2015
Less than 30 days	50,249	54,160
30 – 60 days	838	7,561
61 – 90 days	848	17
91 – 120 days	476	17
More than 120 days	1,363	80
	53,774	61,835

The Group has neither recognised an impairment loss or an allowance for impairment of its trade and other receivables over the past 5 years period.

NOTES TO THE FINANCIAL STATEMENTS

In Rupees Thousands

Cash and cash equivalents

The Group held cash and equivalents in the form of demand deposits with commercial banks, placements with banking institutions and securities purchased under resale agreements, hence the Group is exposed to the risk of such counter-parties failing to meet contractual obligations.

The Group minimise the credit risk by monitoring the creditworthiness of the underlying counterparties periodically.

A credit rating analysis of banking / financial institutional counter-parties with whom the balances were held at the end of reporting period is presented below.

As at 31st March	2016	2015
Credit rating		
Risk free	-	112,013
AAA	15,391	11,202
AA+	-	20,540
AA	544,589	973,571
AA-	466,855	638,535
Unrated	34,242	18,811
	1,061,077	1,774,672

All government securities are classified as risk free and other ratings are obtained based on the ratings published by Fitch Ratings Lanka Ltd.

34.2 Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are required to be settled by delivering cash or another financial asset.

34.2.1 Exposure to liquidity risk

The following are the contractual maturities of financial liabilities at the end of the reporting period.

As at 31st March 2016	Carrying amount	Total	Contractual cash flows		
			up to 3 months	3-12 months	More than a year
non derivative financial liabilities					
Trade and other payables *	181,046	181,046	181,046	-	-
Bank overdraft	15,735	15,735	15,735	-	-
	196,781	196,781	196,781	-	-
As at 31st March 2015	Carrying amount	Total	Contractual cash flows		
			up to 3 months	3-12 months	More than a year
non derivative financial liabilities					
Trade and other payables *	185,741	185,741	185,741	-	-
Bank overdraft	18,875	18,875	18,875	-	-
	204,616	204,616	204,616	-	-

* Provisions and accrued expenses which are non financial liabilities are excluded.

The ratio of liquid assets with a very short expected liquidation period to total net assets is set out below.

As at 31st March	2016	2015
Cash and cash equivalents	1,061,077	1,774,672
Fair value through profit or loss financial assets - Investments in unit trusts	941,623	1,030,749
Total liquid assets	2,002,700	2,805,421
Liquid assets as a % of the total net assets	10%	10%

34.2.2 Management of liquidity risk

The Group's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking the Group's reputation.

The Group maintains a portion of its assets in highly liquid form; demand deposits with commercial banks, placements with banking institutions, securities purchased under resale agreements and short term investment in money market funds, in order to capitalise the market opportunities and to meet its contractual obligations during the normal course of its operations.

A significant portion of the Group's investment portfolio comprises of listed equity investments which provides the Group with exposure to adequate liquidity, given the ability to convert in to cash and cash equivalents within a very short period of time if required.

In addition, the Group has access to approved financing arrangements, an analysis of which as at the reporting period is given below.

As at 31st March	2016	2015
Unutilised overdraft facilities	1,600,000	1,600,000
	1,600,000	1,600,000

34.3 Market risk

The market risk is exposure to adverse movements in the security markets for both equity and fixed income investments, which can result variations in the anticipated returns from those securities. All financial institutions face market risks, created by changes in the macro environment related to political factors, national security, economic management and globalisation influences which have an impact on systematic risk factors such as interest rates, currency parity, inflation and availability of credit etc.

34.3.1 Interest rate risk

The Group is exposed to interest rate risk, arising from its securities purchased under resale agreements, placements with banking institutions and overdraft facilities, in the event such have been utilised.

NOTES TO THE FINANCIAL STATEMENTS

In Rupees Thousands

Exposure and management of interest rate risk

At the end of the reporting period, the interest rate profile of the Group's interest-bearing financial instruments was as follows.

As at 31st March	Carrying Amount	
	2016	2015
Financial assets		
Placements with banking institutions	472,661	-
Investments under resale agreements	567,515	1,742,390
	1,040,176	1,742,390
Financial liabilities		
Bank overdraft	15,735	18,875
	15,735	18,875

The average base interest rates applied for the above financial instruments are as follows;

As at 31st March`	2016	2015
Commercial Banks Averaged Weighted Prime Lending Rate (AWPLR) *	8.87%	6.95%
Commercial Banks Averaged Weighted Fixed Deposit Rate (AWFDR) *	7.92%	6.45%

* Monthly averaged rate

Sensitivity Analysis

A change of 100 basis points in interest rates at the end of the reporting period would have increased / (decreased) profit or loss by the amounts shown below.

Movement in interest rate	Profit or Loss	
	Increase in 1%	Decrease in 1%
As at 31st March 2016		
- On interest earning assets	10,402	(10,402)
- On interest bearing liabilities	(157)	157
	10,245	(10,245)
As at 31st March 2015		
- On interest earning assets	17,424	(17,424)
- On interest bearing liabilities	(189)	189
	17,235	(17,235)

34.3.2 Exposure and management of other market price risks

Listed equity investments

The Group is holding an investment portfolio which includes listed and unlisted equity securities. Having a substantial portion of 81% (2015 - 77%) of its discretionary portfolio as equity investments designated as listed investments in the Colombo Stock Exchange, market volatilities bring in substantial variations to the Company's earnings and value of its asset base at the reporting dates.

The Group monitors the equity securities in its investment portfolio based on market indices, where decisions concerned with the timing of buy / sell are well supported with structured in-house research recommendations. Transactions of a major magnitude within the portfolio are subject to review and approval by the Investment Committee.

Private equity investments

Due evaluations are carried out prior to investing, extending to both financial and operational feasibilities of the private equity projects that the Group ventures in to, with a view to ascertain the Company's investment decision and the risks involved.

Continuous monitoring of the financial results and operations against the budgets and the industry standards ensure that the projects meet the desired outcome, and thereby the returns. Further, the Group generally carries investment agreements with the parties concerned, which carry specific 'exit clauses' to private equity projects - typically an 'Initial Public Offering', a 'Buy-out' etc.

The total asset base which is exposed to equity price risk is tabulated below.

As at 31st March	Note	Carrying Amount	
		2016	2015
Available for sale financial assets - investments in equity securities	22.3.a/b/c	15,600,774	22,780,984
Available for sale financial assets - investments in unit trusts Guardian acuity equity fund	22.3.e	38,275	40,850
Fair value through profit or loss financial assets - investment in equity securities	24.3.a	1,720,003	1,653,948
		17,359,052	24,475,782

A broad analysis of the investments made by the Company, based on the industry/sector is given in note 22 and 24.

34.3.3 Currency risk

Foreign currency risk is the risk that fair value or future cash flows of a financial instrument will fluctuate, due to changes in foreign exchange rates. The Group is exposed to currency risk, through its' subsidiary, The Sri Lanka Fund (a country fund incorporated in Cayman Islands), which is denominated in a currency other than the group's functional currency, which is the prime factor that exposes the Group in to currency risk.

Following are the exchange rates that were used to translate the assets and liabilities of foreign operations, to Sri Lanka Rupees at exchange rates at the reporting date. The income and expenses of foreign operations are translated to Sri Lanka Rupees at the averaged exchange rates for the reporting period.

For the year ended / As at 31st March	Conversion rate	
	2016	2015
USD/LKR		
Assets and liabilities	144.06	131.87
Income and expenses	136.18	130.64

34.5 Fair value hierarchy

The table below analyses financial instruments carried at fair value, by the levels in the fair value hierarchy. The different levels have been defined as follows.

Level 1: Availability of quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Use of inputs other than quoted prices that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: Use of inputs for the asset or liability that are not based on observable market data (unobservable inputs).

	Level 1	Level 2	Level 3	Total
As at 31st March 2016				
Available for sale financial assets	15,568,697	-	152,452	15,721,149
Fair value through profit or loss financial assets	2,661,626	-	-	2,661,626
	18,230,323	-	152,452	18,382,775

As at 31st March 2015				
Available for sale financial assets	22,764,623	-	133,634	22,898,257
Fair value through profit or loss financial assets	2,684,697	-	-	2,684,697
	25,449,320	-	133,634	25,582,954

Reconciliation of Level 3 - fair value : Available for sale financial assets

For the year ended 31st March	2016	2015
Opening balance	133,634	58,634
Additions	10,256	75,000
Change in fair value	11,452	-
Disposals	(2,890)	-
Closing balance	152,452	133,634

NOTES TO THE FINANCIAL STATEMENTS

34.6 Valuation techniques and significant unobservable inputs

The following table show the valuation techniques used in measuring Level 3 fair values, as well as the significant unobservable inputs used:

Investment in equity securities	Valuation method/ techniques	Unobservable inputs	Ranges	Weighted average	Inter-relationship between key unobservable inputs and fair value. The estimated fair value would increase if.
Private equity (unlisted)	Discounted cash flows :	Revenue CAGR	13% - 25%	16.00%	Increase
		Exit multiple:	5-8	7	Increase
	The valuation model considers the present value of the net cash flows expected to be generated by the entity's operations. The expected net cash flows are discounted using a risk-adjusted discount rate.	*P/E-Price to earnings ratio (times)			
		*EV/EBIT-Enterprise value to earnings before interest and tax			
		Discount rate	15.5%-20%	17.10%	Decrease

35 Segmental Reporting

The company's Chief Operating Decision Maker (CODM) monitors the operating results of the entity as a whole considering the operations as a single segment Investment holding and asset management for the purpose of making decisions about resource allocation and performance. Therefore no disclosure is made on operating segments.

36 Events after the reporting period

- After satisfying the solvency tests in accordance with Section 57 of the Company's Act, No. 7 of 2007, The Directors has recommended the payment of a first and final dividend of Rs.3/- (2015 - Rs.3/-) per Ordinary and Deferred share for the year ended 31st March 2016 amounting to Rs.266,341,065/- (2015 - Rs. 263,509,467/-) which is to be approved at the forthcoming Annual General Meeting. According to the Sri Lanka Accounting Standard (LKAS 10) - "Events after the reporting period" the proposed final dividend has not been recognised as a liability as at 31st March 2016.
- A subsidiary company, Guardian Capital Partners PLC (WAPO) entered into a Joint Venture Agreement with Small Enterprise Assistance Funds (SEAF, a company registered in the State of New York, USA) on 28th April 2016. The Joint Venture Agreement was entered in order to form a JV Company in an overseas jurisdiction to carry on a fund management business to manage and invest in Private Equity projects in Sri Lanka. Guardian Capital Partners PLC will hold 41.7% and Small Enterprise Assistance Funds will hold 58.3% in the joint venture management company initially. Guardian Capital Partners PLC's participation in this venture is subject to obtaining all relevant regulatory and shareholder approvals in Sri Lanka.

Subsequent to the reporting period, no circumstances have arisen which would require adjustments to or disclosure in the financial statements, other than the above.

37 Commitments and contingencies

37.1 Capital expenditure commitments

There were no material capital commitments exist as at the reporting date.

37.2 Contingencies

There were no material contingent liabilities as at the reporting date.

38 Responsibility for Financial Statements

The Board of Directors is responsible for the preparation and presentation of the financial statements. This is more fully described under the relevant clause in the Directors' Report.

FIVE YEAR SUMMARY

In Rupees Thousands

For the year ended / As at 31st March	2016	2015	2014	2013	2012
